

PRODUCT INFORMATION

CSA Z614

The bowed top and bottom rope on this Vertical Ropes playground equipment net adds an extra wiggle and wobble. Like a ropes course high in the treetops, the Vertical Rope climber requires you to let go of one rope as you reach for the next one. A perfect addition to a Post and Ropes circuit in a natural playground.

Maximum height: 3 m
 Fall height: 2.8 m
 Area of Safety Surfacing: 30.5 m²

The highest designated play surface and space required are according to CSA Z614. A buffer is included in the fall zone to account for fabrication and material variations.

Resilient safety surfacing is required within the fall zone of equipment.

If you have questions about the equipment or require changes, please contact Earthscape at 1-877-269-2972.
