

PRODUCT INFORMATION

ASTM F1487

The Grid net on this Post and Rope element gives users a flexible climbing experience for climbing up, down and across. It can even be an impromptu hangout spot to sit and chat. This natural playground element is best used in combination with other Post and Rope elements to create a climbable circuit or ropes course.

Maximum height: 10'-0"

Fall height: 9'-2"

Area of Safety Surfacing: 335 ft²

The highest designated play surface and space required are according to ASTM F1487. A buffer is included in the fall zone to account for fabrication and material variations.

Resilient safety surfacing is required within the fall zone of equipment.

If you have questions about the equipment or require changes, please contact Earthscape at 1-877-269-2972.
