

## PRODUCT INFORMATION

ASTM F1487

Log Steppers are so simple, yet have so much play value. They are available in four different heights, 6", 12", 18", and 24" above surfacing. Children, teens and adults of all ages enjoy jumping or stepping between Log Steppers. They are a perfect and easy way to functionally link different natural playground elements. Log Steppers can be used individually or in groups.

Maximum height: 24"  
Maximum stepper (fall) height: 24"  
Minimum stepper height: 6"  
Area of Safety Surfacing: 150 ft<sup>2</sup>

The highest designated play surface and space required are according to ASTM F1487. A buffer is included in the fall zone to account for fabrication and material variations.

Resilient safety surfacing is required within the fall zone of equipment.

If you have questions about the equipment or require changes, please contact Earthscape at 1-877-269-2972.
