

PRODUCT INFORMATION

ASTM F1487

Log Pile 2.1 is the smallest of the Log Pile configurations. The base log can act as a balance beam that is interrupted by a crossing log. That adds play value as very young children learn to navigate disruption in their path.

Maximum height: 2'-10"
Maximum fall height: 2'-10"
Area of Safety Surfacing: 424 ft²
User Capacity: 6

The highest designated play surface and space required are according to ASTM F1487. A buffer is included in the fall zone to account for fabrication and material variations.

Resilient safety surfacing is required within the fall zone of equipment.

If you have questions about the equipment, please contact Earthscape Collections at collections@earthscapeplay.com
