

It's time for legal to shine

Modernization unlocks legal's potential to respond to the needs of the business, create measurable value, and drive lasting competitive advantage.

Accounting

70%

of companies who have automated more than 25% of their accounting functions report moderate/substantial ROI¹

IT

90%

of businesses expect modernization to significantly impact long-term growth²

HR

68%

of HR leaders leverage analytics to measure workforce performance³

Legal

19%

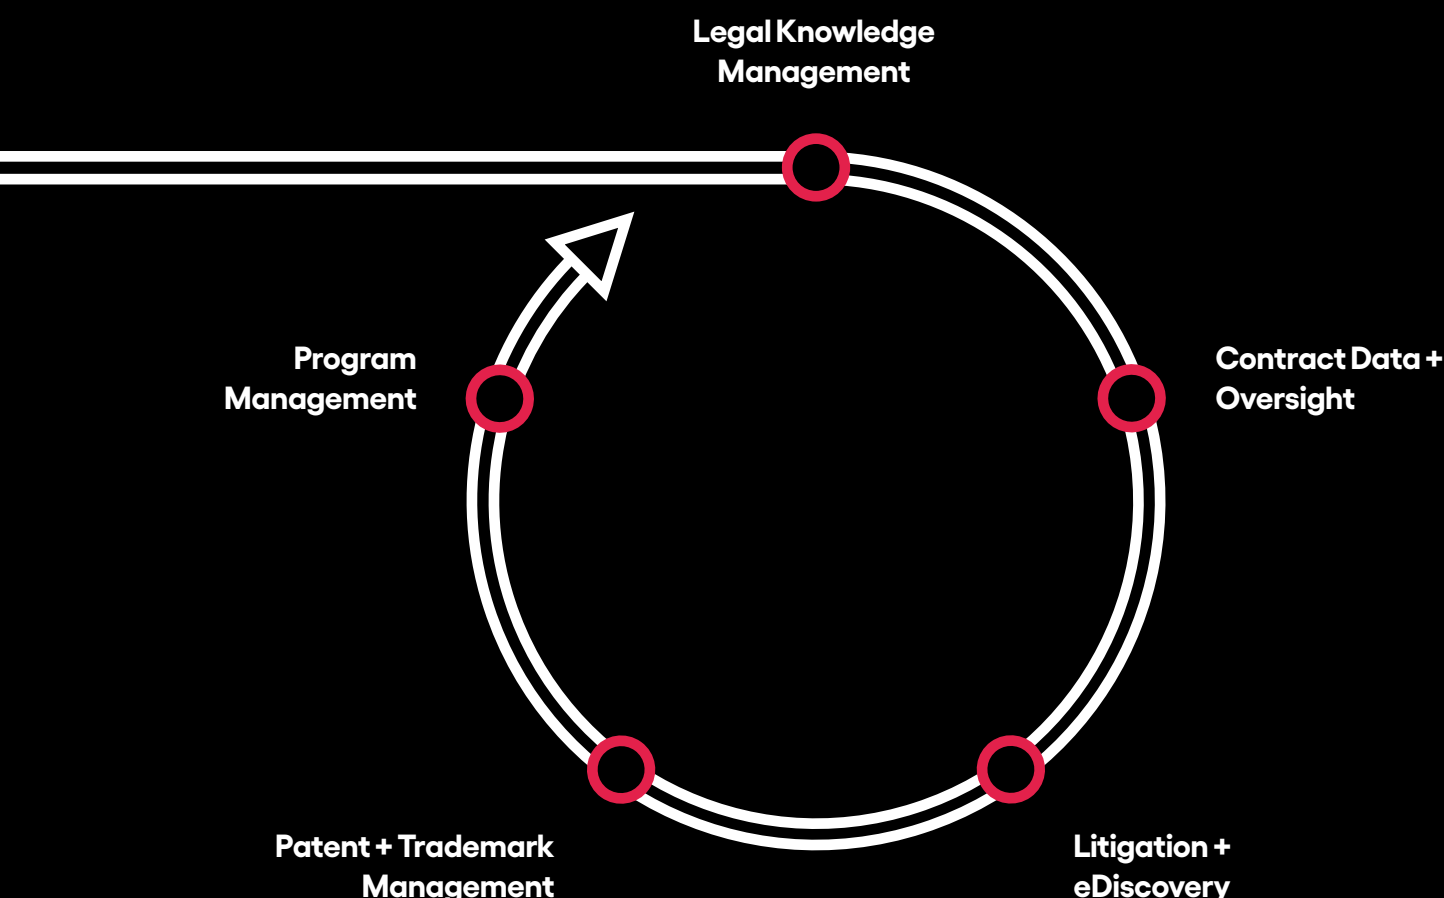

Only 19% of legal departments are ready for digital⁴

Are misconceptions about modernization holding legal back?

- 1. Can I start small?**
Yes, just think big. Start with smaller projects tied to a larger vision. Work with a partner on an agile approach, with legal department expertise.
- 2. Do I have to invest budget up front to get started?**
No, high impact projects typically self-fund and a well-conceived plan will identify projects with immediate impact.
- 3. Is it risky to challenge the status quo?**
It's more risky to stagnate. The right modernization roadmap will reduce friction.
- 4. Will I need new technology?**
Our technology is typically part of the solution, so avoids licensing and integration costs and risk.

Where does legal modernization begin for you?

A sound strategy should align with business priorities, meet legal department needs and deliver measurable results. UnitedLex can design a roadmap with an outcome-focused approach to legal modernization that makes sense for your business culturally and financially.
