

Dilexi te animation script for children

Dilexi te is a message from Pope Leo about caring for people who are poor. He writes:

God has a special love for people most in need. He asks us to put them first.

This is part of Catholic Social Teaching.

When we put people who are most in need first, we try to love them and help them.

Not everyone in the world is able to have everything they need to live a good life.

Some people do not have safe clean water, or enough food to eat. Some people do not have a safe place to live or are not able to go to school.

God created every person, so we are all very special! We all have human dignity. Everybody should be welcomed, loved and cared for.

Fundraising, giving money and sharing fairly is an important way to help people in need.

But there are so many other ways to help. We can show our love by doing real, kind actions each day.

We can build a better world by putting love in action.

Doing something is always better than doing nothing.

If we want to build a better world, we must put the poorest people in our world first.

We must build a world where everyone is able to live a full and happy life.

When we try to love others, love can work miracles!

We can all build a better world when we love our neighbour.
