In 2017/18 CAFOD spent £30m on grants and programme payments made up of; 612 grants to third parties totalling £28.30m, plus payments made in support of partners for programme activities totalling £1.45m, increased by foreign currency exchange losses of £0.21m.

Grants are made within long term strategies agreed with our partners, with grants for international development programmes often made on a three-year basis. Programme payments are programme activities related to partner grants that are managed by CAFOD, often made where several partners are working together within an overall thematic programme.

Before individual grants and CAFOD managed programme activity budgets are agreed, project proposals are subject to a formal assessment and approval. All projects are systematically monitored for the duration of their existence, and major projects are subject to a final evaluation review.

In total we achieved a 7% increase in the value of grants and programme payments in 2017/18 compared to the previous year, particularly from increased emergency preparedness, response and recover grants.
