CALL ON THE PRIME MINISTER TO TACKLE THE GLOBAL DEBT CRISIS

Low-income countries are being pushed into a deepening debt crisis, forced to pay ever higher interest rates to wealthy lenders. Money that should be spent on healthcare and education is flowing out of countries that can least afford it. Governments across the global south have an impossible choice between serving their people or paying their creditors. Every day this continues, millions are suffering the effects. Next year, the UK will chair the G20. This is a critical moment and a test of leadership. The UK must act now to help end this crisis. We, the undersigned, call on the Prime Minister to take immediate action:

1. Pass a UK Debt Justice Law—without delay

Pass legislation to require private lenders to participate in debt relief on the same terms as other lenders, so they can no longer make huge profits from countries struggling with unsustainable debts.

2. Lead urgent reform of the global debt system

Use the UK’s G20 presidency to bring governments together to fix the broken global debt system and guarantee fast, fair and effective debt relief for countries in crisis.
