

Origami boat

Follow these instructions to make your own origami boat! You will need one A4 piece of paper.

1. Fold the paper in half. Then unfold.

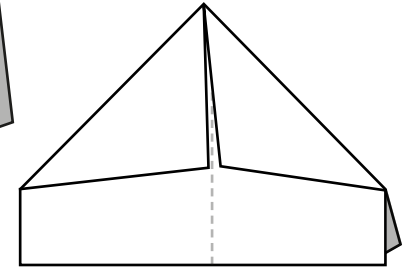

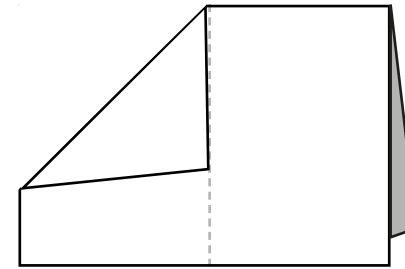

2. Fold the paper in half again.

so it looks like this

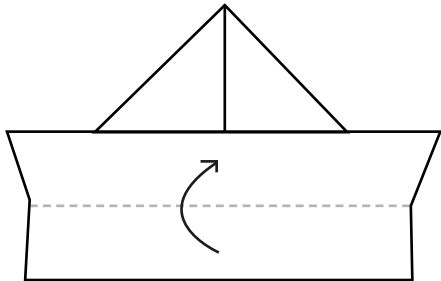

3. Fold both the corners in.

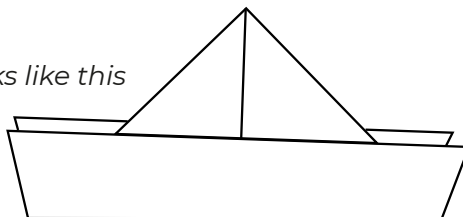

so it looks like this

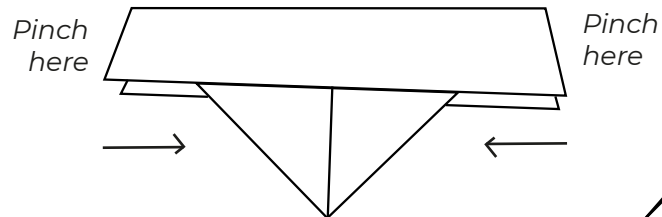

4. Fold up both sides.

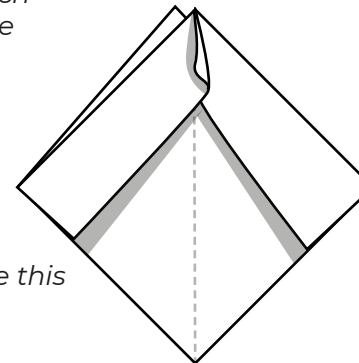

So it looks like this

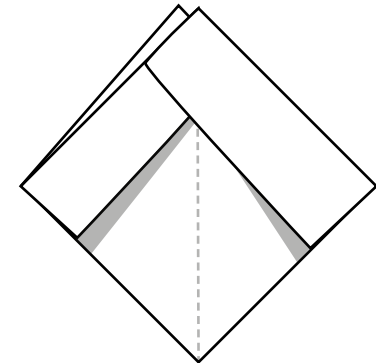

5. Turn upside down. Pinch the sides and push together until it flattens.

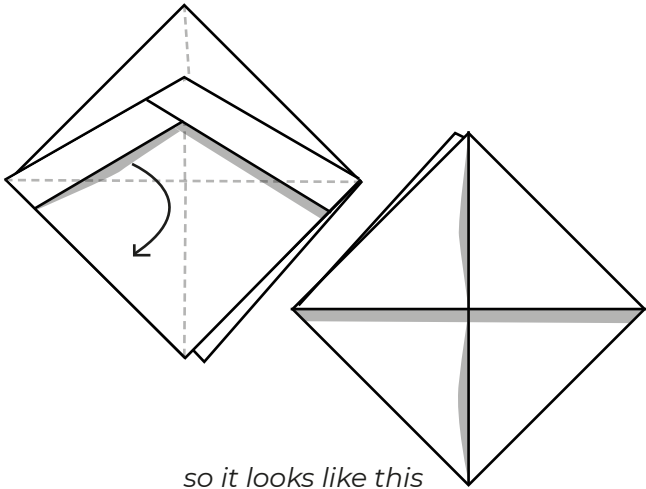

so it looks like this

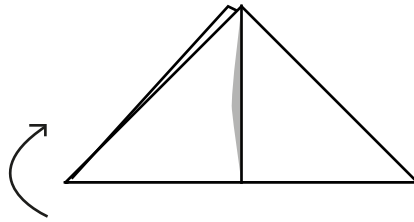

6. Tuck one rectangle beneath the other on both sides.

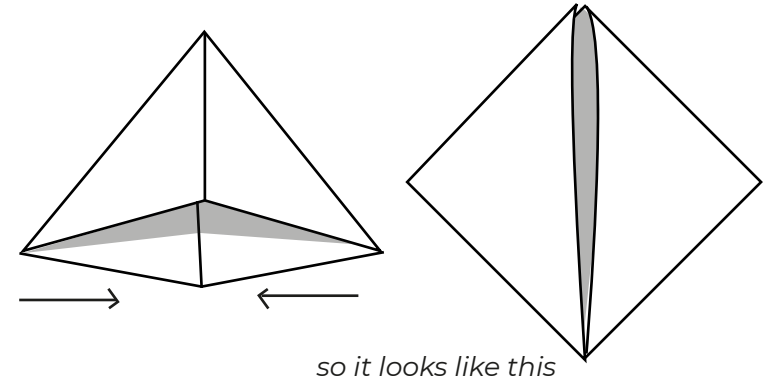

7. Fold down the top point up of the diamond to the bottom point, on one side.

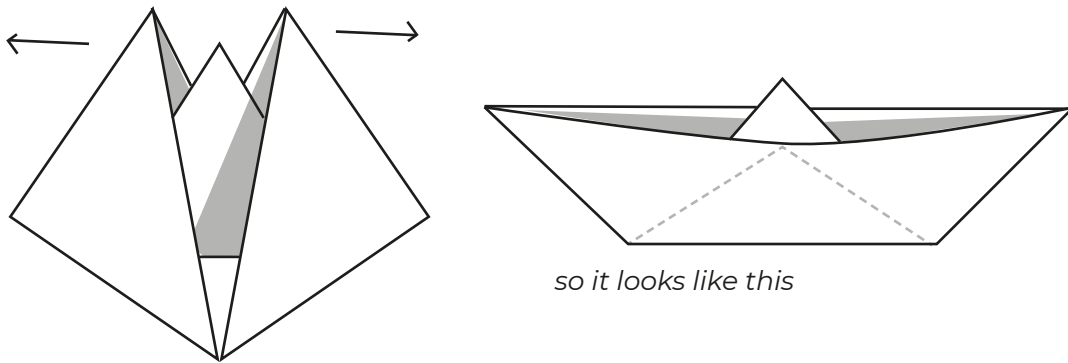

8. Do the same on the other side so it makes a triangle.

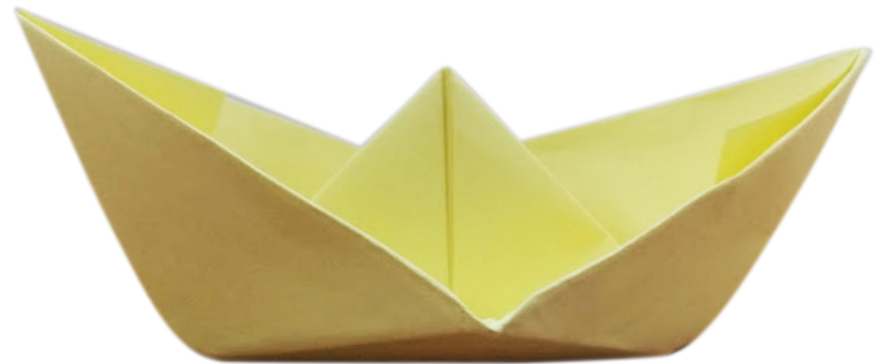

9. Push in the left and right flaps to form a diamond.

10. Pull the corners out to form a boat. The triangle in the middle looks like a sail!

And there you have it, a boat!
