

## **Strollers Rules of use**

1. Strollers are approved from birth up to 22 kg or 4 years, whichever limit comes first prevails;
2. For babies with 0 to 6 months, the stroller must be used in a fully reclined position.
3. Always use the five-point retention system;
4. Use the seat belt whenever your child is in the seat. To check that the belts are properly secured (on the rear surface of the seat), after the child has been placed, pull the end of the belts;
5. You must use the braking device to place or remove the child, as well as whenever you stop;
6. Do not use the stroller on stairs and/or escalators;
7. Do not lift the stroller with the child sitting in it;
8. Never leave your child unattended;
9. This stroller must be used for its intended purpose;
10. You should store your shopping bags and/or bag in the appropriate compartment (basket) and never on the handles to prevent the stroller from tipping over. Any weight suspended from the handles, back and/or sides of the stroller may compromise the stability.
11. Baskets have a maximum permitted load of 3kg;
12. Do not transport more than one child at a time;
13. This product must only be used by an adult.

To ensure your safety and the safety of your child, we ask you to comply with the rules of use. The use of strollers presupposes the knowledge and acceptance of the rules of use. We appreciate your comprehension and hope you enjoy your visit.
