Waste Electrical and Electronic Equipment-WEEE
NOTE: This product is covered electronic equipment under the European Union’s Waste from Electrical and Electronic Equipment (“WEEE”) Directive (2012/19/EU). The WEEE Directive requires that covered equipment be collected and managed separately from typical household waste in all EU member states. Please follow the guidance of your local environmental authority or ask the shop where you purchased the product for collection or recycling options.
FCC Part 15
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Part 15 Class B specific Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Warning
Changes or modifications not expressly approved by the party responsible for compliance with the FCC could void the user's authority to operate the equipment. This transmitter must not be co-located or operated with any other antenna or transmitter.

FCC Part 15
Changes or modifications not expressly approved by the party responsible for compliance with the FCC could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement
The product complies with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Radiation Exposure Statement
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Warning
Changes or modifications not expressly approved by the party responsible for compliance with the FCC could void the user's authority to operate the equipment. This transmitter must not be co-located or operated with any other antenna or transmitter.

FCC Radiation Exposure Statement
The product complies with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Declaration d'exposition aux radiations:
Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Fils-Unis et le Canada établies pour un environnement non contrôlé. Le produit est sûr pour l'utilisateur si le dispositif est utilisé en conformité avec les instructions. L'exposition aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps de l'utilisateur ou si le dispositif est réglé sur la puissance la plus faible que la fonction est disponible.

Caution: Exposure to Radio Frequency Radiation
This product complies with EU requirements regarding restriction of exposure to radio-frequency energy (RF) emitted by telecommunication and radio devices as it is designed and manufactured in such a way as not to exceed the exposure limits indicated by the European Union Commission. The permitted SAR limit for the general population is 2.0 W/kg for body and 4.0 W/kg for head. This limit guarantees an ample safety margin that protects all persons regardless of age and health condition. SAR is measured with the device at rest and at 0mm to the extremity, while transmitting the highest certified output power level in all frequency bands of the device. The highest 1g level recorded for this model was equal to body 1.44 W/kg & limb 2.28 W/kg.

Radiation Exposure Statement
The product complies with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.
