

DRUGS 101: WHAT PARENTS NEED TO KNOW

Program to educate parents about the various forms of drugs and peer pressures facing students to use them.

A mock bedroom of a teenager serves as the backdrop for this presentation, focusing on trendy drug and alcohol indicators and how some adolescents hide drug and alcohol use from their parents. Parents are given an opportunity to identify drug and alcohol paraphernalia items that are placed within the mock bedroom scene.

Signs, symptoms and current trends of legal and illegal drug use will be presented. Parents will also be provided strategies on how to initiate difficult conversations regarding drug use.

Byrnes 
Health Education

Educating and inspiring people of all ages to make healthy choices.
