

Dear Jonathon,

Thank you for sharing your provisional finding with me. I would like to make two points.

- 1 I am happy to make immediate repayment to IPSA on the basis of your findings, however I would like to offer additional evidence regarding the basis of your calculation. As you can see from the enclosed statement from Sharp Business Systems for the lease of the two machines, a Riso and Printer, the cost in the lease is proportioned 43% to the printer and 57% to the Riso. With that in mind I would like to offer to repay 10% of the cost of the Riso, which would be £1,257.29.
- 2 I would like it stating in the findings that the I have offered to repay £110 towards office use voluntarily in the event of any unlogged use of the office during and before the sublet agreement I have in place with IPSA. This equates to 20 days under that agreement.

Thank you once again for sharing the findings with me.

Yours sincerely,

Paul Maynard MP
