

BLUE LAGOON

ICELAND

In-Water Storytelling at Blue Lagoon

Immersed in the mineral-rich warmth of the Blue Lagoon, guests will enjoy a unique storytelling experience as our spa hosts weave captivating tales that unravel the history, design, science, sustainability, and majesty of Blue Lagoon Iceland.

Description

Our narrative journey will begin with a brief history of Iceland and its astounding geology. We'll then focus on the enchanting universe of Blue Lagoon Iceland: the nearby volcanic eruptions from 2021-22; Blue Lagoon's distinctive architecture; the Svartsengi geothermal power plant and Blue Lagoon's all-encompassing approach to sustainability; the unexpected formation of the Blue Lagoon in 1976; the extraordinary properties of Blue Lagoon Water and the water's ability to soothe psoriasis and catalyze wellbeing; the cleanliness of Blue Lagoon Water; and Blue Lagoon Iceland's remarkable 30-year evolution from geothermal waste to a world of wellbeing. The storytelling session will conclude with guest questions as we aspire to quench the desire for more knowledge.

Duration

30 minutes, followed by a Q&A session

Private storytelling for groups
