

Exquisite and enchanting, Retreat's wine cellar is a subterranean sanctuary three meters deep in the earth. A cavern of multicolored, frozen-in-time lava that erupted in the year 1226, this stunning chamber evokes images of ancient cave paintings. But the walls—lined with wines from all over the world—were painted by the volcanic hand of nature.

Available everyday from 12:00 to 17:00 for private tastings, the wine cellar opens the door to a festive, intimate occasion in a sublime and unforgettable location. Additionally, we offer an Open wine tasting experience everyday at 17:00. Please see the various options below.
