Turbocharge your Well-Architected Framework Reviews with Miro

At Miro, our mission is to empower teams to create the next big thing. Miro provides a visual workspace for innovation that enables distributed teams of any size to dream, design, and build the future together.

Miro and AWS have created new integrations and features for better visualization, optimization, and Well-Architected Framework Reviews in a single workspace. This helps you complete reviews faster, earn more AWS credits, and win more clients.

## Enable collaborative diagramming with Miro's AWS Shape Packs

Alleviate the pain of siloed diagramming by collaborating on AWS architecture creation in Miro

- Leverage AWS Shape Packs to collaborate cross functionally on diagram creation in real time right within the Miro board.
- Import existing architecture from draw.io instantly with our free draw.io integration.

Automatically compile risks with Miro's AWS Well-Architected Tool

Say goodbye to manual compiling and human error saving you time while removing risks

- Color-coded risks automatically appear on your Miro board from the AWS console complete with risk mitigation suggestions.
- Instantly move risks into project management tools like a KanBan on the board for efficient project planning in a single source of truth.

## Instantly estimate architecture cost with Miro's AWS Cost Calculator

Remove manual architecture cost calculations, saving you time and enabling faster decision-making

- Simply highlight AWS architecture on the board with Miro's AWS Cost Calculator to get an estimate of the hourly, monthly, and yearly cost of the architecture.
- Adjust configurations in real time to ensure the proper service usage.

Keep everything in a single source of truth with Miro as a project hub

Eliminate siloed work by leveraging Miro as a project hub, complete with templates, task tracking integrations, and project management solutions
- Bring task tracking together with Miro's two-way integrations with popular project management tools.
- Embed crucial documents.
- Leverage pre-built templates or create your own to reduce time needed to set up future engagements.

Better together: Miro and AWS have built a strong partnership focused on driving innovation for your team

Built on Strong Foundations

AWS provides the infrastructure and security for Miro, making it the platform of choice for 99% of Fortune 100 companies.

Constant Collaboration

Miro is part of the AWS Partner Network and available on the AWS Marketplace. We're also working closely with AWS to bring innovative new workflows to your teams.

Partner of the Year

Miro is the 2023 CEE ISV Partner of the Year award winner, in recognition of our commitment to building software that shapes the future.
