

Privacy Impact Assessment Register

Under the [Privacy \(Australian Government Agencies – Governance\) APP Code 2017](#) (Privacy Code), the Coal Mining Industry (Long Service Leave Funding) Corporation (Coal LSL) is required to maintain and publish a register of the Privacy Impact Assessments (PIA) it conducts for all high-risk privacy projects.

A project may be a high privacy risk project if it:

- involves a significant change to how Coal LSL manages personal information; or
- might have a significant impact on the privacy of individuals

Since the Privacy Code came into effect on 1 July 2018, Coal LSL has conducted no PIAs.

Coal LSL will incorporate PIAs into the register as they are completed.
