

**The way we all
work is broken .
Let's fix it.**

Learn more →

Work is broken.

It's split up. Disconnected.

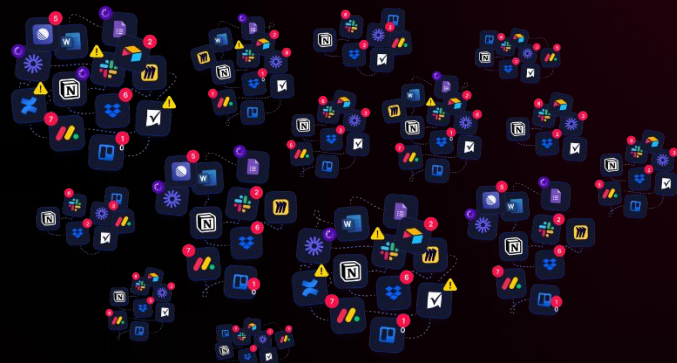

Your employees are
Distracted

Your teams are doing
Redundant Work

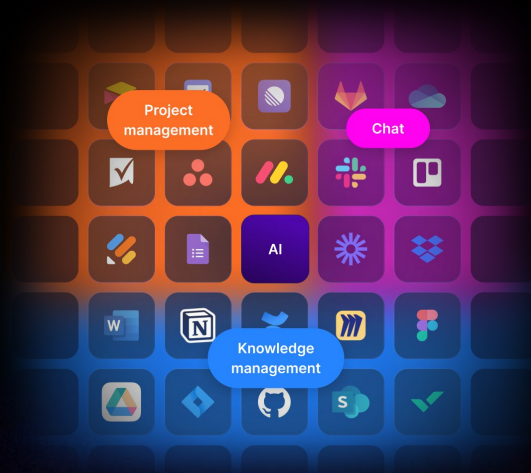

Your whole company is
Moving Slowly

60% of a team's time is spent sharing, looking for, and updating information between one tool and another.

- HBR

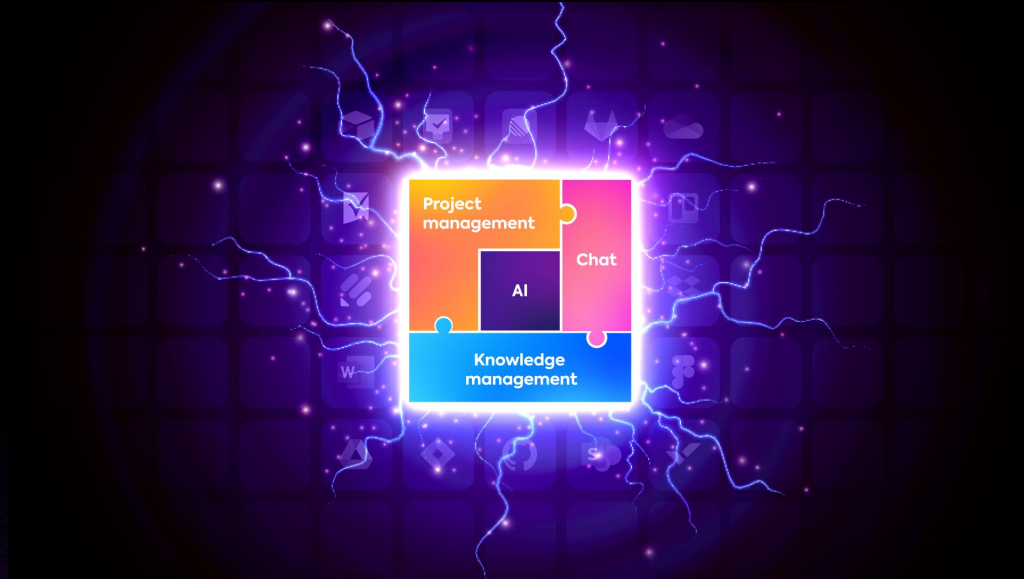

Your teams are working out of **3 totally disconnected areas.**

- **Tasks & Projects**
Where work is supposed to be
- **Docs & Wikis**
Where all the knowledge sits
- **Chat & Calls**
Where people talk about work

**There's a
better
way...**

**For the first time ever,
you can combine everything,
in one app .**

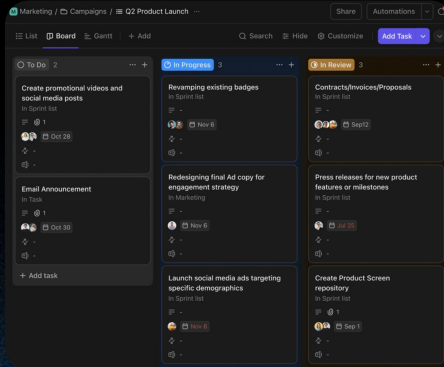

Meet ClickUp —the everything app, for work.

Finally, one place for teams to communicate and get work done.

Project Management

Get work done faster.

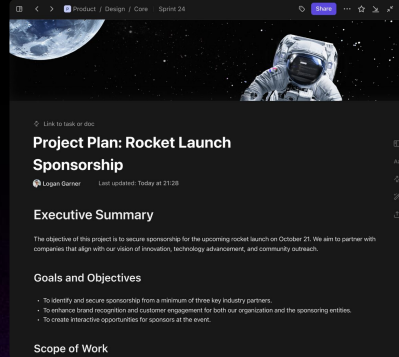

- Flexible for every team
- Makes the work visible
- AI can create & update tasks

Knowledge Management

Create a single source of truth.

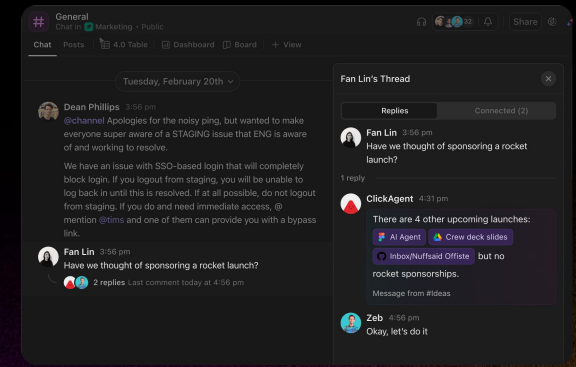

- Robust docs & wikis in one place
- Connect to and search all your other work apps
- AI gives you answers, not just info

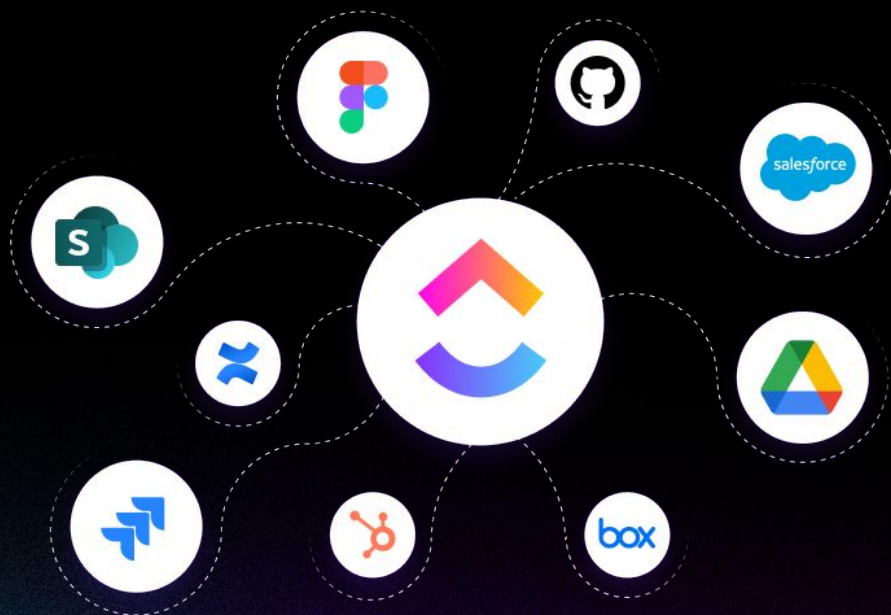

Chat

More productive conversations.

- Work from Chat
- Context is always connected
- AI keeps chat manageable

Access your entire company's knowledge with AI Connected Search & Automation.

- **True enterprise search.** Full access to all knowledge across all of your company's connected apps.
- **AI-driven actions.** Use connected apps to not only find information, but to automate your work.

... Which enables an **AI platform** that actually delivers.

Project Management

Get work done faster.

Agents ✨
Work done for you

Knowledge Management

Create a single source of truth.

Connected Search ✨
Access your company's collective knowledge

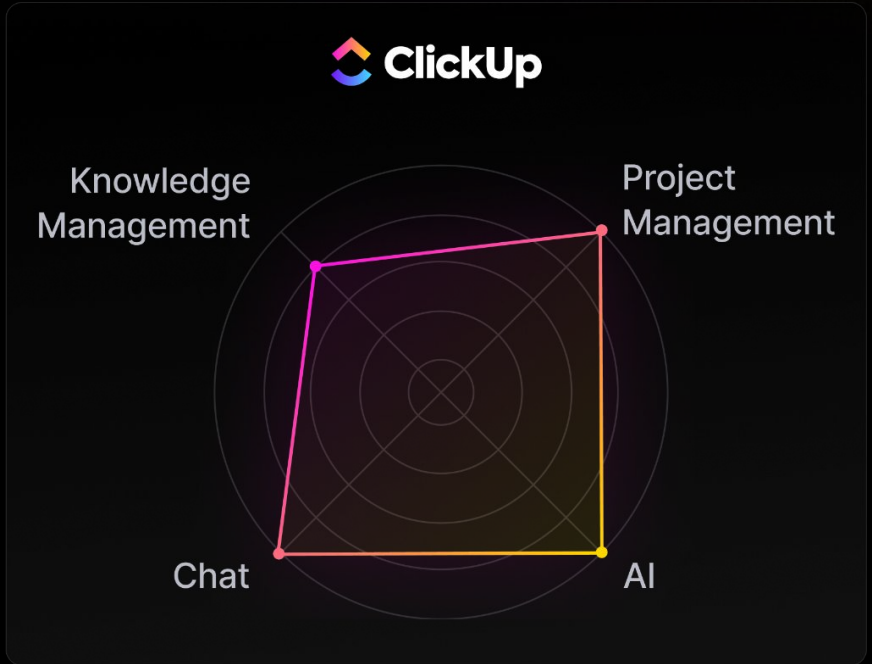

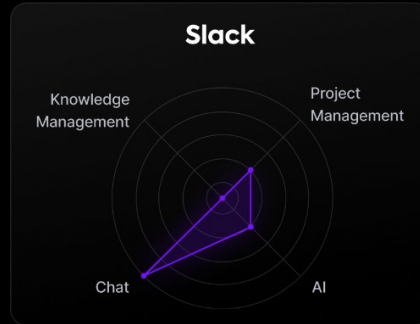

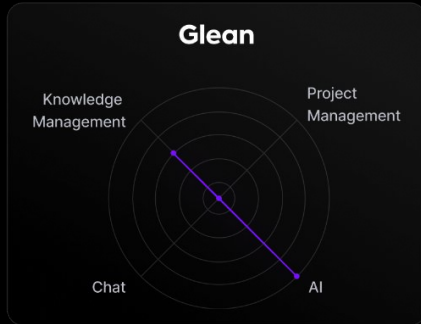

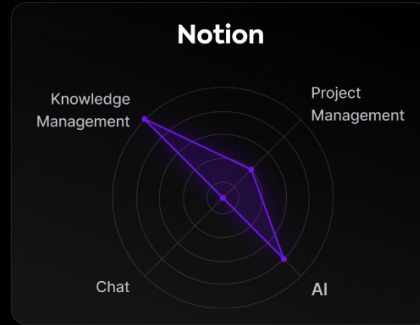

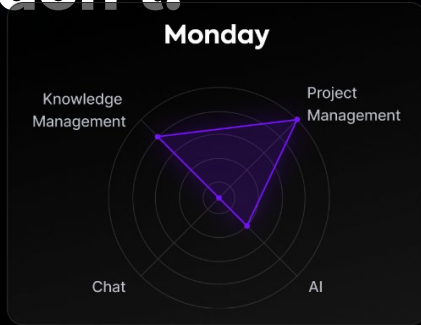

Chat

More productive conversations.

Productivity Assistant ✨
An AI helper for every employee

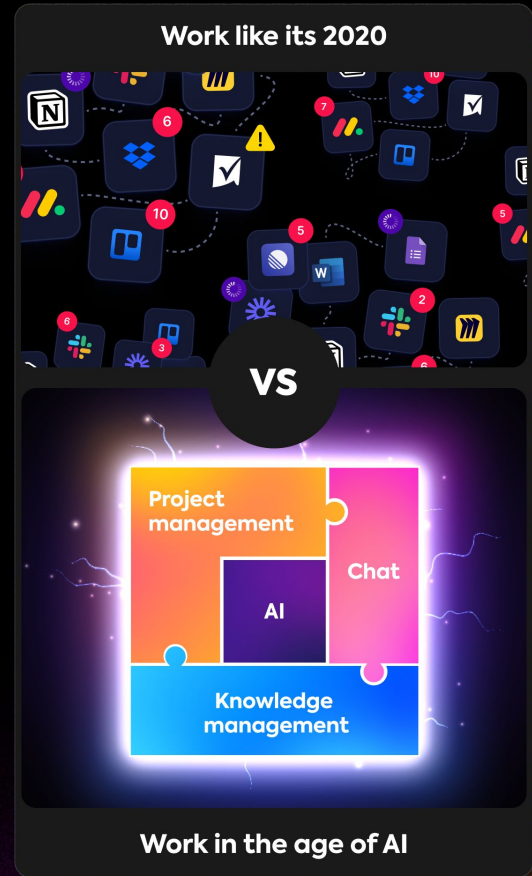

*This is how **10x your productivity** is possible.*

Don't let other companies tell you they have an everything app. They don't.

The way we work has evolved. Don't get left behind.

3 Million teams are shipping faster because they fixed work with ClickUp.
