

## Summer is so airy and light with Street One

Fresh contrasts and premium-quality materials are the key to summer fun

Kirchhorst, 13 June 2024. Summer is finally here and it's time to love the warm weather. Street One Collections 07 and 08 feature a variety of new styles and trends for perfect summer looks that keep you cool on hot days.

Collection 07 includes wide-cut trousers and airy tops that invite us to enjoy balmy summer days. The timeless pairing of black and white is an inspiring component of the new collection that offers endless possibilities for both elegant and casual outfits. With their immense versatility for a wide variety of occasions, they'll see us through the summer in style.

In August, Collection 08 introduces the two new colours of 'Seafoam Green' and 'Marina Blue', both of which are perfect for mixing and matching with stunning results. The corduroy items are the headline collection pieces that give any look an extra special statement. When the temperatures start to get cooler towards the end of the season it's time to showcase the lightweight jackets. They're perfect for a leisurely walk on the beach or late-summer evenings outdoors. At the same time, they make a stylish element that complements any outfit.

Delivery of Collection 07 will begin in mid-June, with Collection 08 following in mid-July. The items are available in stores or online at [www.street-one.de](http://www.street-one.de).

**About Street One:**

Street One stands for a casual-feminine collection that impresses with the best quality, fit and combinability. From the selection of high-quality materials to the workmanship, we place great emphasis on quality and attention to detail to ensure the longevity of our products.

**About the CBR Fashion Group:**

CBR Fashion Group is an international fashion company with a long history of success. Our brands represent different styles, but they have one thing in common: the belief that fashion is not just made for one season, but should be worn for years to come. We are dedicated to the pursuit of excellence in every way. From the selection of high-quality materials to the workmanship, we place the utmost importance on quality and attention to detail to ensure the longevity of our products. We see this as a decisive contribution to greater sustainability.

Many customers have been loyal to our brands for years. We are grateful for this. At the same time, it spurs us on to design attractive products for them anew with each collection. Thanks to our proximity to the market and our experience, we have a clear idea of their preferences, wishes and expectations. This enables our design teams to translate current fashion trends into relevant items for our customers
