

## 5G Service-based Reference View (Core)

## Test Agents & Platforms for 5G Evolution

**Spirent Virtual Test Agents (VTAs)** emulate network functions, devices and user activity so you can test and assure your evolution to 5G across the service lifecycle — from the lab to the production network. Our VTAs provide comprehensive support for the functions depicted in this poster (and many more!). Contact Spirent to learn more.

**Emulate, Test & Assure** 5G, LTE, Wi-Fi (and more!) **VTA** Virtual Test Agent (VTA)

<p><b>E5</b> Indoor &amp; outdoor over-the-air testing for LTE and WiFi</p>	<p><b>E10</b> Mobile Core, Diameter, IMS testing, with optional over-the-air LTE and Wi-Fi support</p>	<p><b>C50/100</b> 25/40/100G testing and emulation of large volumes of subscribers and traffic</p>
---	--	--

**Spirent Test Platforms**  
Platforms for hosting Virtual Test Agents when NFVi and white boxes are not available or over-the-air testing is required
