

Spirent VisionWorks Test Platforms

End-to-End Coverage for Active Network, Service, and Experience Assurance

Prepare for, deliver, and monitor service quality, network performance, and end-user experience through active testing. VisionWorks Test Platforms and Test Agents can be deployed throughout the network to streamline activation testing, provide end-to-end visibility, proactively detect issues, and automate troubleshooting. Deliver reliable performance that exceeds customer expectations.

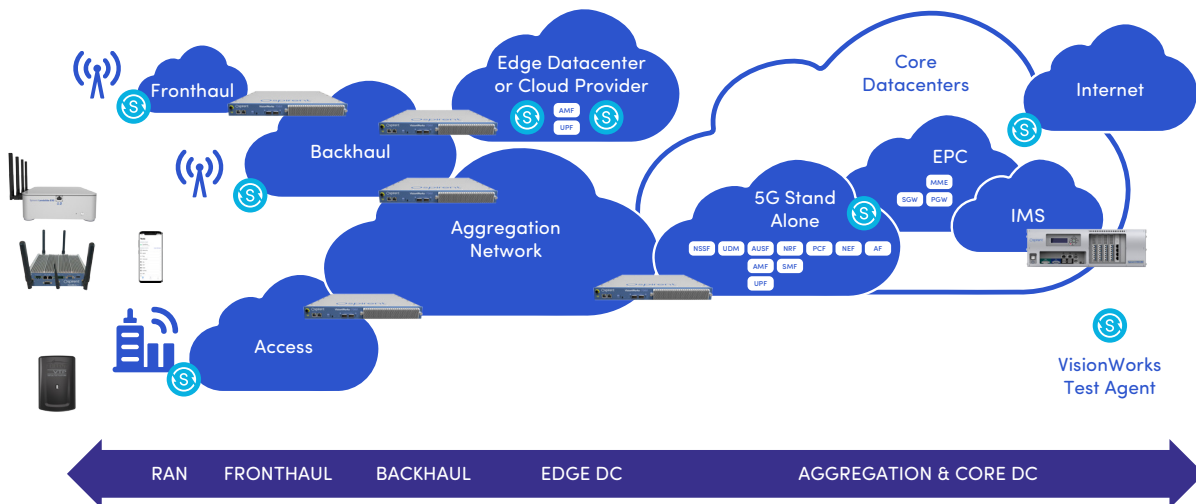

VisionWorks Test Platforms support an ever-growing library of active tests that can be run 24x7 from anywhere, to anywhere. See the issue, resolve the issue, before users are impacted.

Platforms	Virtual	P2 N2	2522 ²	7562	DTA	E5	E10	C100-M4
