AN ENDURING COMMITMENT TO safeguarding Africa's wildlife & wilderness

Singita is a conservation and ecotourism brand that has been helping to preserve Africa's untouched natural spaces for almost three decades and we offer guests exceptional safari experiences at 16 award-winning lodges and camps across four countries.

In partnership with non-profit Funds & Trusts who implement strategic conservation projects in each of the regions in which we operate, our 100-year purpose is to preserve and protect large parts of African wilderness for future generations.

We are steadfast in our commitment to protect unique ecosystems, help recover critically endangered species and ensure no further extinction, benefit neighbouring communities under our care, and contribute positively to the reduction of GHG emissions through our climate commitments.

Travellers choose to stay at Singita because of the expansive space and beauty of our remote locations. They value the restorative serenity of these pristine wilderness areas, as well as the limited guest and vehicle numbers, extraordinarily consistent game viewing and exceptional & intuitive care that is taken of each guest during their stay. When they depart, they are transformed for life and deeply moved by their connection and contribution to the legacy of this continent.

“Singita’s ethos of ‘touching the Earth lightly’ is no longer just a forward-thinking principle; it is imperative to our survival, and that of the land, wildlife and communities under our care.”

GENERAL MANAGER CONSERVATION**

CONSERVATION as a way of life

Singita has been championing conservation in Africa from its inception.

The critical conservation work we carry out with our non-profit Funds & Trusts is aimed at restoring, enhancing and protecting the biodiversity of the ecosystems under our care. Our sustainable conservation model helps to balance tourism in all of the regions in which we operate.

SINGITA LOWVELD TRUST

In South Africa, the Singita Lowveld Trust manages a wide range of conservation projects in Singita Sabi Sand and Singita Kruger National Park – from anti-poaching initiatives to wildlife research & land management, sustainability efforts and community partnership projects such as early childhood development, digital learning and a world-class culinary school.

WELCOME TO Singita Ebony Lodge

Singita Ebony Lodge is set on the banks of the Sand River, offering a fresh and modern interpretation of the classic safari. The lodge combines the curved lines inspired by the Adobe architecture of North and West Africa with the utilitarian feel of a luxury tented camp while maintaining the rustic essence of its origin story.

Ebony is an exciting mix of past and present - interiors feature gentle colours inspired by nature, such as indigo, ecru and ochre - while fold-up safari-style furniture is matched beautifully with antiques and heirlooms. African art, sourced from local artisans, pays a warm tribute to the creativity of the continent.

The Conservation Room is at the heart of the main lodge, a consciously curated space showcasing fascinating artefacts where guests can explore the living heritage of the region.

Located in the private Sabi Sand Nature Reserve in South Africa, Ebony Lodge provides guests with access to 45,000 acres of an incredible wildlife sanctuary that's renowned for its high concentrations of big game and frequent leopard sightings.

Weather and temperature

BEST TIME TO GO ON SAFARI

Southern Africa is a year-round destination. Traditionally the dry winter months (April to October) are best for game viewing, due to the shorter grass, lack of foliage and the absence of water which forces the game to concentrate around the remaining sources of drinking water. Annual rainfall, usually in the form of short afternoon thunder showers that clear up within an hour, occur from December to March. Many species give birth to their young around the start of the rainy season which is when the the bush comes alive with newborn animals.
