

# Singita | Volcanoes National Park

## Packing guidelines

### Lodge

- No formal wear is required and the atmosphere at the main lodge is relaxed and homely.
- Trousers, long-sleeved tops, T-shirts and a warm layer for the evenings.
- Swimming costume/bathing suit for swimming in your suite's heated plunge pool, a sun hat and sunglasses.
- Comfortable shoes and sandals.
- Cotton clothing in neutral colours for outdoor walks and cycling. It's advisable to avoid white and dark colours as they tend to attract bugs.
- Sun block, lip balm and mosquito repellent. (These products are provided, but you are welcome to bring your own preferred brand.)
- Video camera, camera, binoculars and a spare memory card. (Each suite is equipped with a pair of binoculars for guests to use during their stay, but they are welcome to also pack their own.)

## Trekking

Conditions vary, so it's best to be prepared for rain & muddy terrain and pack:

- > waterproof hiking boots with a good grip & ankle support
- > hiking chaps (to protect against stinging nettles)
- > gloves
- > a waterproof jacket/raincoat
- > hiking trousers
- > thick socks
- > a long-sleeved top

*\*While some of these items are available to borrow at the lodge, we strongly recommend that guests bring their own*

Provided by Singita:

- > Comfort kits including sunscreen, a sweat towel, a buff & sanitary/toilet eco-bags
- > A lunchbox, water bottle & made-to-order snacks

The state-of-the-art Gear Room at the main lodge offers high-quality equipment for outdoor hiking & wet weather, for guests to borrow during their stay:

- > hiking chaps/gators
- > water resistant trousers
- > hiking shoes/boots (limited sizing available)
- > a backpack
- > rain cover
- > trekking poles\*

*\*Locally made and carved poles can also be borrowed or purchased from porters in Volcanoes National Park*

Please note:

While we do have boots available, sizes are limited, so we recommend that guests bring their own. Be sure to pack shoes with a good grip - you'll need ones that can withstand the terrain, which is often quite slippery and muddy.
