Compassion in Action

Serving the Underserved

Imagine hospitals where no one ever receives a bill, several schools, a university, a medical college where students study up to doctoral levels entirely free, and a nutrition mission that serves 10 million children every single morning. This is the scale of service built by the founder of One World One Family Mission.

Distinguished leaders from the the humanitarian and global development ecosystem, will bring diverse perspectives and expertise in advancing humanitarian impact.

We are also pleased to mark a special milestone during this evening: the launch of the Netherlands chapter of the One World One Family Mission, “Eén Wereld, Eén Familie,” reaffirming its commitment to serving communities both in the Netherlands and globally across its three core pillars.

Join us for a rare opportunity to hear the vision, the stories, and the spirit behind a mission that is quietly transforming the world.
