Blue Max Impression Tip

Black Mini Tip

White Mac Tip

Slip TriAway snugly over three way syringe tip.  
(Fits on most three way size tips.)\*

\*Dimensions 0.152"/3.86mm

**Precautions:** Do not autoclave. Do not reuse to avoid cross contamination

Attach Ultradent tip of choice firmly to end. Experiment  
with air/water, air, or water prior to use in mouth.

Ausgewählten Ultradent-Spritzenansatz sicher befestigen.  
Zunächst mit Spray, Wasser oder Luft testen, vor dem  
Einsatz im Mund.

TriAway fest auf die Mehrfunktionsspritze  
aufstecken (passt auf die meisten Spritzen-  
Kanülen).\*

\*Maße 0,152"/3,86mm

**Achtung:** Nicht autoklavieren. Nicht wiederholt verwenden, um Kreuzkontamination zu verhindern.

Insérer fermement l'embout TriAway sur la  
seringue multifonctions. (S'adapte sur la  
majorité des seringues multifonctions)\*

\*Dimensions 0.152"/3.86mm

**Précautions :** Ne pas stériliser à l'autoclave. Ne pas réutiliser pour éviter la contamination croisée.

7 Fixer fermement un embout Ultradent de votre choix.  
Essayer avec l'air ou l'eau avant toute utilisation en  
bouche.

Plaats de TriAway goed passend op de  
driefunctiespuittip. (Past op de meeste  
driefunctiespuittips.)\*

\*Afmetingen 0.152"/3.86 mm

**Voorzorgsmaatregelen:** Niet autoclavieren. Niet opnieuw gebruiken om kruisbesmetting te vermijden.

Bevestig de Ultradent-tip naar keuze stevig op het  
uiteinde. Probeer uit met lucht/water, lucht of water  
alvorens in de mond te gebruiken.

ITALIAN

Far scorrere sull'estremità della siringa a tre vie  
(Si adatta alla maggior parte delle estremità a  
tre vie di misure diverse)\*

\*Dimensioni: 3,86mm (0,152")

**Precauzioni:** non autoclavare. Per evitare la contaminazione crociata non riutilizzare.

Collegare con fermezza la punta Ultradent prescelta  
all'estremità. Provare con aria/acqua, aria o acqua prima  
dell'uso intraorale.

SPANISH

Ajuste el adaptador TriAway sobre la punta  
de la jeringa triple (se adapta a la mayoría de  
jeringas triples).\*

\*Dimensiones 0.152"/3.86mm

**Precauciones:** No desinfecte en autoclave. No lo reutilice, así evitará la contaminación cruzada.

Sujete firmemente la punta Ultradent de su elección con  
el extremo de la jeringa. Experimente con aire/agua  
antes de usarlo en la boca del paciente.

PORTUGUESE

Colocar TriAway sobre ponta de seringa tripla  
(encaixa sobre a maior parte das seringas triplas).\*

\*Dimensões 0.152"/3.86mm

**Precauções :** Não autoclavável. Não reutilizar para evitar a contaminação cruzada.

Colocar ponta Ultradent seleccionada firmemente na  
extremidade. Tester com jacto de ar e/ou água antes de  
utilizar na boca.

SWEDISH

Dra över TriAway ordentligt på treväggsprutan tip.  
(Den passar till de flesta sprutor.)\*

\*Storlek 3.86 mm

**Obsarvera:** autoklavera ej. För undvikande av korskontamination får produkten inte återanvändas.

Sätt på lämplig Ultradent kanyl på sprutadaptersn slut.  
Pröva med luft/vatten, luft, eller vatten före användning  
i munnen.

DANISH

Træk TriAway over 3-funktionsprøjtes spids,  
så den slutter tæt. (Passer på de fleste 3  
funktionsprøjter)\*

\*Mål: 0.152"/3,86mm

**Forholdsregler:** Tåler ikke autoklavering. Må ikke genbruges for at undgå krydskontaminering.

Sæt den valgte Ultradent spids fast på enden.  
Eksperimenter med luft/vand, luft eller vand før brug i  
munden.

FINNISH

Laita TriAway tukevasti kolmitoimiruiskun  
kärkeen. (Sopii käytettäväksi useimpien  
kolmitoimiruiskujen kanssa).\*

\*Koko: 0.152"/3.86mm

**Huomioitavaa:** Ei voi autoklavoida. Älä käytä uudelleen ristikontaminaation välttämiseksi.

Kinnitä valitsemasi Ultradent kärki tiukasti paikoilleen.  
Testaa puhaltamalla ilmaa/vettä, ilmaa tai vettä ennen  
suussa käyttöä.

GREEK

Τοποθετήστε σφικτά τον προσαρμογέα  
TriAway πάνω από το ρύγχος της  
αεροσύριγγας. (Ταιριάζει στα  
περισσότερα μεγέθη αεροσύριγγας).\*

\*Διαστάσεις : 0,152"/3,86mm

**Προφυλάξεις :** Μην το αποστειρώνετε σε αυτόκλαυστο. Μην το  
επαναχρησιμοποιείτε για να αποφύγετε τη διασταυρωτική μόλυνση.

Τοποθετήστε οποιοδήποτε ρύγχος της  
Ultradent επιθυμείτε σφικτά στο άκρο του  
ρύγχους. Δοκιμάστε το με αέρα/νερό, αέρα  
ή νερό πριν το χρησιμοποιήσετε στο στόμα.

**U.S. federal law restricts this device to sale by or on the order of a dentist.**

**Keep out of reach of children.**

## TriAway™ Syringe Adapter

### Description:

The TriAway™ syringe is a disposable irrigator/dryer to be used with Ultradent™ delivery tips on three-way syringes. It will fit most three-way syringe tips with an outside diameter of 0.1523"/3.86mm.

### Indications:

Use the TriAway syringe for controlled application of water and/or air to depths of tiny cavity preparations, whether they are minimally invasive operative-type preparations or endodontic preparations. Removal of water or excess bonding agents from even acute corners and line angles of larger preparations occurs with precision and superior predictability and quality.

### Procedure:

1. Slip TriAway snugly over three-way syringe tip.
2. Attach Ultradent syringe tip of choice firmly to end.
3. Experiment with air/water, air or water flow on inert surface prior to use in mouth.

### Precautions:

1. Do not force compressed air or water into endodontic canals or surgical sites.
2. Tips with a smaller diameter than a Max Tip (0.055" ID) should only be used with air or water - not both at the same time.  
Use of air/water with smaller diameter tips will not allow flow of both and may lead to backflow.
3. To prevent unwanted dislodgement, verify that all components are firmly attached.
4. Use light to moderate pressure with smaller diameter tips. Pneumatization of tissues may occur if tips are directed into sulcular tissues or surgical sites.
5. Insert TriAway to end of three-way syringe tip.
6. Apply petroleum jelly to three-way syringe tip before inserting TriAway.
7. Do not autoclave the TriAway syringe.

Fig. 1 Black Mini™ or Blue Max™ Impression tips are recommended for use with the TriAway syringe. The Blue Max or White Mac™ (shown here) provide a more predictable air water flow although access into micro preparations may be limited.
