Chromaclone® 5-day stability

The Freedom of Five Full Days

In your busy dental office, every second counts. Every extra minute you save lets you breathe a little easier. With Chromaclone 5-day alginate impression material you'll get more than a few extra minutes—you'll get a few extra days. That's because Chromaclone alginate's new formulation offers a full five days to pour your impressions, not just the few hours you're used to.*

And as always, Chromaclone alginate offers the same dust-free formula and reliable set times you depend on. The Fast set time (53 seconds) features a convenient color-changing formula, while the Extra Fast set time (45 seconds) is ideal for more sensitive patients. And both are available in a delicious Bubble Gum flavor. **YUM!**

Fast Set: 53 seconds

- 4033 Chromaclone 5-day Kit**
1 x 1 lb bag of Chromaclone 5-day
1 x Plastic container, water cup, and scoop

- 4034 Chromaclone 5-day Refill**
1 x 1 lb bag of Chromaclone 5-day

Extra Fast Set: 45 seconds

- 5502 Chromaclone Ortho 5-day Kit**
1 x 1 lb bag of Chromaclone Ortho 5-day
1 x Plastic container, water cup, and scoop

- 5503 Chromaclone Ortho 5-day Refill**
1 x 1 lb bag of Chromaclone Ortho 5-day

*Wrap the impression with a damp paper towel and store in a sealed plastic bag at room temperature (23°C/73°F) to ensure dimensional stability for up to five days.
