

The Gemini 810 + 980 diode laser is dentistry's first dual-wavelength soft tissue diode laser featuring 20 watts of peak super-pulsed power and a stunning, fully transparent electroluminescent display. No matter the procedure, the innovative Gemini laser makes it faster, smoother, and more efficient.

DUAL WAVELENGTHS.
ONE OF A KIND.

GEMINI™

810 + 980 DIODE LASER

- 20 watts of peak super-pulsed power for faster, smoother cutting
- Dual wavelength technology combines the optimal melanin absorption of the 810 nm wavelength and the optimal water absorption of the 980 nm wavelength
- Tip illumination provides better visibility at surgical site
- Sleek, innovative design features a stunning transparent electroluminescent display
- Simple user interface and 19 preset procedures enhance ease of use
- Wireless foot pedal and battery operation allow for convenient movement from operator to operator
- Autoclavable handpiece for simple sterilization between procedures
- Designed and assembled in the USA from U.S. and imported components
