Class IIs Are Easier Than Ever With SuperCurve Matrices

- + Micro-thin, non-stick finish makes matrix removal easier
- + Matrix creates lifelike curvature and anatomical precision
- + Pronounced marginal ridge produces accurate anatomy
- + Color coding makes size identification easy
- + Gingival apron provides matrix coverage for deeper preps

SuperCurve Kit

The best in class V3 system now available with SuperCurve matrices.

The Trident SuperCurve Matrix is now available in a V3 System kit, putting all the best Trident products in one place. The SuperCurve matrix has greater curvature that gives lifelike anatomy, making it easier to work with. This saves you time and allows you to achieve even better restorations. And the non-stick finish makes removing the matrix easier and faster. It's among the simplest and most accurate matrix solutions on the market.
