Whiter teeth even with braces!

Opalescence Go whitening features the UltraFit™ tray, which adapts to the smile of any patient—even those wearing orthodontic appliances. The unique tray material easily adapts around brackets for a comfortable and effective whitening experience. Opalescence Go whitening is the perfect option for whitening smiles with braces and giving every patient an extra measure of confidence at every stage of their orthodontic treatment.

Opalescence go[®]

Features of Opalescence Go Whitening

- Unique tray material offers an extremely comfortable fit and easily conforms to any patient's individual smile
- Molar-to-molar coverage ensures the gel comes in contact with more posterior teeth
- UltraFit™ tray's superior adaptation ensures the maximum amount of gel stays in contact with the teeth during whitening
- Available in 10% hydrogen peroxide (with wear times from 30–60 minutes)
- Delicious Mint flavor
- Convenient prefilled trays can be worn right out of the package
- Optimal gel quantity allows easy cleanup after whitening
- Sleek packaging provides superior stability, shelf life, and branding
