

Opalescence™ Endo whitening

- Designed to brighten non-vital, endodontically treated teeth
- 35% hydrogen peroxide in a high-viscosity gel
- Easy to place inside pulp chamber
- One to five days per application

Opalustre™ slurry

- Uses chemical and mechanical microabrasion to permanently remove superficial enamel imperfections, mild fluorosis, or demineralization
- Low 6.6% hydrochloric acid concentration with silicon carbide microparticles
- Provides a minimally invasive permanent solution

Opalescence™ Whitening Toothpaste

- Formulated to strengthen enamel and prevent cavities¹
- Gentle enough for everyday use²
- Active stain removal for whiter teeth
- Unique Cool Mint flavor for fresh breath
- Also available in a Sensitivity Relief formula to treat sensitive teeth

UltraEZ™ desensitizing gel

- Helps treat sensitivity from tooth whitening
- Available in disposable prefilled trays and syringes for use with custom trays
- Contains potassium nitrate and neutral NaF
- Sustained-release formula

Opalescence Whitening for every smile

The Opalescence teeth whitening family offers a variety of products to fit any patient's lifestyle and brighten their smile. Each product can be used alone or with another Opalescence whitening product for a personalized combination treatment.

Opalescence Teeth Whitening Family

Opalescence™ PF whitening

- Used with custom-made trays tailored to each patient's smile
- Available in 10%, 15%, 20%, 35%, and 45% concentrations of carbamide peroxide for day or night wear
- Available in Mint, Melon, and Regular flavors
- Sticky, viscous gel won't migrate to soft tissues and ensures tray stays securely in place³
- Uniquely formulated to brighten your teeth up to 5 shades⁴
