Brighter smiles, better days

A brighter smile can help your patients look their best and feel their best, turning good days into better ones. Let Opalescence whitening help you change your patients' lives for the better.

The Opalescence tooth whitening product family offers a variety of products to fit any patient’s lifestyle and whitening needs. Each product can be used alone or with another Opalescence product for a personalized combination treatment.

Opalescence™ PF tooth whitening gel for custom tray

- Used with custom-made trays tailored to each patient’s smile
- Available in 10%, 15%, 20%, 35%, and 45% concentrations of carbamide peroxide for day or night wear
- Available in Mint, Melon, and Regular flavors
- The sticky, viscous formula of Opalescence gel does not leach from the tray like other whitening agents.³
- Opalescence safely brightens teeth up to 5 shades^{4,5}
