

Astringedent™ X

Coagulante, Hemostatic Agents

Product Description

Astringedent™ X hemostatic is a 12.7% iron aqueous solution containing ferric sulfatite and sulfur ferric with pH between 10.0 and 12.0. Astringedent X hemostatic is intended for use in restoring oral mucosal tissue after oral surgery or dental procedures. It is also intended for use in arresting various degrees of oral capillary bleeding or sulcular fluids during dental treatment, including fixed prostheses, restorative-operative and periodontal treatment. Astringedent X hemostatic may also be used for the treatment of gingivitis, gingivoperiodontitis, and "fixatio" for pulpotomies (in situations where a temporary hemostat is used). For all products described, carefully read and understand all instructions and SDS information prior to use.

Dental Formulae

• 30 ml Indispense® syringe

• 30 ml bottle

Indications for Use/Intended Purpose

For use in arresting oral capillary bleeding and/or sulcular fluids in restorative, operative, and surgical dentistry.

Contraindications

• Do not use in patients with known allergies to ferric sulfate.

• For patients with allergies with Verdant on Allergen Information

Information available at www.ultradent.com. If an allergic reaction is observed, then expose instead thoroughly with water and have the patient consult their physician.

Warnings and Cautions/Warnings and Caution

• Prior to bonding, impressions or in the presence of any other contaminant, the tooth preparation surface must be cleaned with a brief 2-3 seconds of 35% phosphoric acid etch followed by a firm air/water spray to remove contaminants.

• To avoid blue discoloration of soft tissues, these ferric sulfate hemostatic agents should not be mixed with epinephrine or any other epinephrine-impregnated displacement cement.

• Avoid clothing or skin contact. Use protective clothing and protective eyewear for the dentist, assistant, and the patient when loading and handling ferric sulfate hemostatic. If contact with clothing occurs, use Astringedent Spot Remover.

• Use only recommended tips.

Stepwise Instructions

Preparation - 1.2 ml syringe

1) Attach recommended delivery tip and verify color, consistency, and flow prior to applying introrally.

2) Replace tip.

3) Check for leaks.

4) Apply to the tooth preparation.

5) Rinse with water.

6) Dry with air/water spray.

7) Verify color and consistency.

8) Repeat steps 1-7 as needed.

9) Apply to the tooth preparation.

10) Rinse with water.

11) Dry with air/water spray.

12) Verify color and consistency.

13) Repeat steps 1-12 as needed.

14) Rinse with water.

15) Dry with air/water spray.

16) Verify color and consistency.

17) Repeat steps 1-16 as needed.

18) Rinse with water.

19) Dry with air/water spray.

20) Verify color and consistency.

21) Repeat steps 1-20 as needed.

22) Rinse with water.

23) Dry with air/water spray.

24) Verify color and consistency.

25) Repeat steps 1-25 as needed.

26) Rinse with water.

27) Dry with air/water spray.

28) Verify color and consistency.

29) Repeat steps 1-29 as needed.

30) Rinse with water.

31) Dry with air/water spray.

32) Verify color and consistency.

33) Repeat steps 1-32 as needed.

34) Rinse with water.

35) Dry with air/water spray.

36) Verify color and consistency.

37) Repeat steps 1-37 as needed.

38) Rinse with water.

39) Dry with air/water spray.

40) Verify color and consistency.

41) Repeat steps 1-41 as needed.

42) Rinse with water.

43) Dry with air/water spray.

44) Verify color and consistency.

45) Repeat steps 1-45 as needed.

46) Rinse with water.

47) Dry with air/water spray.

48) Verify color and consistency.

49) Repeat steps 1-49 as needed.

50) Rinse with water.

51) Dry with air/water spray.

52) Verify color and consistency.

53) Repeat steps 1-53 as needed.

54) Rinse with water.

55) Dry with air/water spray.

56) Verify color and consistency.

57) Repeat steps 1-57 as needed.

58) Rinse with water.

59) Dry with air/water spray.

60) Verify color and consistency.

61) Repeat steps 1-61 as needed.

62) Rinse with water.

63) Dry with air/water spray.

64) Verify color and consistency.

65) Repeat steps 1-65 as needed.

66) Rinse with water.

67) Dry with air/water spray.

68) Verify color and consistency.

69) Repeat steps 1-69 as needed.

70) Rinse with water.

71) Dry with air/water spray.

72) Verify color and consistency.

73) Repeat steps 1-73 as needed.

74) Rinse with water.

75) Dry with air/water spray.

76) Verify color and consistency.

77) Repeat steps 1-77 as needed.

78) Rinse with water.

79) Dry with air/water spray.

80) Verify color and consistency.

81) Repeat steps 1-81 as needed.

82) Rinse with water.

83) Dry with air/water spray.

84) Verify color and consistency.

85) Repeat steps 1-85 as needed.

86) Rinse with water.

87) Dry with air/water spray.

88) Verify color and consistency.

89) Repeat steps 1-89 as needed.

90) Rinse with water.

91) Dry with air/water spray.

92) Verify color and consistency.

93) Repeat steps 1-93 as needed.

94) Rinse with water.

95) Dry with air/water spray.

96) Verify color and consistency.

97) Repeat steps 1-97 as needed.

98) Rinse with water.

99) Dry with air/water spray.

100) Verify color and consistency.

101) Repeat steps 1-101 as needed.

102) Rinse with water.

103) Dry with air/water spray.

104) Verify color and consistency.

105) Repeat steps 1-105 as needed.

106) Rinse with water.

107) Dry with air/water spray.

108) Verify color and consistency.

109) Repeat steps 1-109 as needed.

110) Rinse with water.

111) Dry with air/water spray.

112) Verify color and consistency.

113) Repeat steps 1-113 as needed.

114) Rinse with water.

115) Dry with air/water spray.

116) Verify color and consistency.

117) Repeat steps 1-117 as needed.

118) Rinse with water.

119) Dry with air/water spray.

120) Verify color and consistency.

121) Repeat steps 1-121 as needed.

122) Rinse with water.

123) Dry with air/water spray.

124) Verify color and consistency.

125) Repeat steps 1-125 as needed.

126) Rinse with water.

127) Dry with air/water spray.

128) Verify color and consistency.

129) Repeat steps 1-129 as needed.

130) Rinse with water.

131) Dry with air/water spray.

132) Verify color and consistency.

133) Repeat steps 1-133 as needed.

134) Rinse with water.

135) Dry with air/water spray.

136) Verify color and consistency.

137) Repeat steps 1-137 as needed.

138) Rinse with water.

139) Dry with air/water spray.

140) Verify color and consistency.

141) Repeat steps 1-141 as needed.

142) Rinse with water.

143) Dry with air/water spray.

144) Verify color and consistency.

145) Repeat steps 1-145 as needed.

146) Rinse with water.

147) Dry with air/water spray.

148) Verify color and consistency.

149) Repeat steps 1-149 as needed.

150) Rinse with water.

151) Dry with air/water spray.

152) Verify color and consistency.

153) Repeat steps 1-153 as needed.

154) Rinse with water.

155) Dry with air/water spray.

156) Verify color and consistency.

157) Repeat steps 1-157 as needed.

158) Rinse with water.

159) Dry with air/water spray.

160) Verify color and consistency.

161) Repeat steps 1-161 as needed.
