

TRANSCEND™

UNIVERSAL COMPOSITE

 RESIN PARTICLE MATCH™

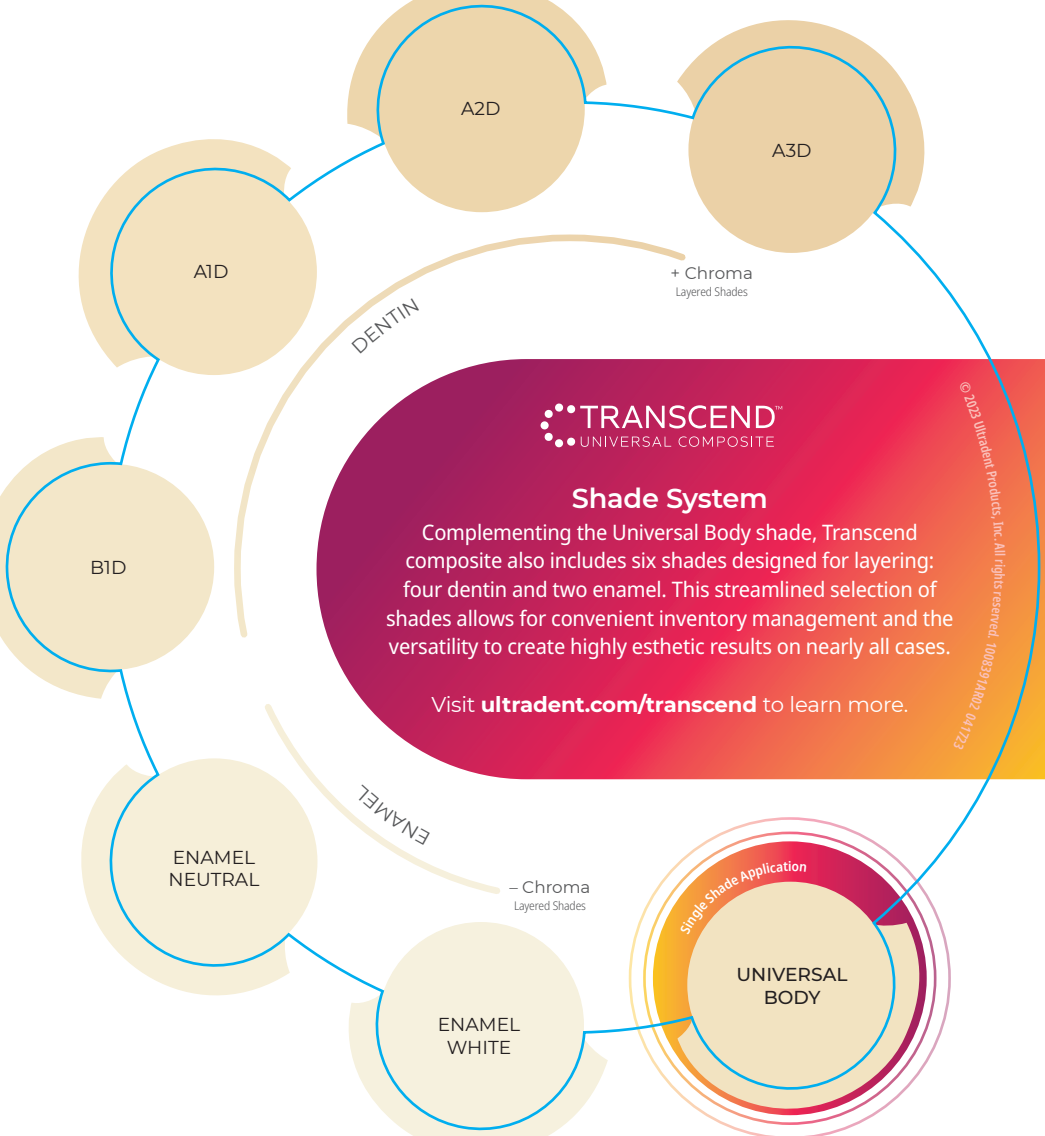

Transcend composite allows you to complete restorations with just one shade, no blocker needed. The Universal Body shade is able to blend in with tooth structure of almost any color thanks to Ultradent's **Resin Particle Match™** technology.

TRANSCEND[™]
UNIVERSAL COMPOSITE

Shade System

Complementing the Universal Body shade, Transcend composite also includes six shades designed for layering: four dentin and two enamel. This streamlined selection of shades allows for convenient inventory management and the versatility to create highly esthetic results on nearly all cases.
