

ULTRA CARE™

TOPICAL ANESTHETIC GEL

TOTAL TOPICAL CARE

Ultracare topical gel is a delightfully flavored 20% benzocaine oral anesthetic gel for rapid, profound topical anesthesia. It can be delivered directly on a cotton swab to increase patient comfort.

Ultracare™

Topical Anesthetic Gel

When you choose Ultracare gel as your topical anesthetic,
YOU GET ITS TRIO OF BENEFITS.

- + 20% benzocaine for effective numbing
- + Numbs tissues in as little as 10 seconds
- + Delicious dye-free Waterberry flavor with no bitter aftertaste

301 - Ultracare Waterberry Topical Bottle
1 x 1 oz bottle

METHEMOGLOBINEMIA WARNING:

For external use only. Use of this product may cause methemoglobinemia, a serious condition that must be treated promptly because it reduces the amount of oxygen carried in blood. This can occur even if you have used this product before. Stop use and seek immediate medical attention if you or a child in your care develop pale, gray, or blue colored skin (cyanosis), headache, rapid heart rate, shortness of breath, dizziness or lightheadedness, fatigue, or lack of energy. Product supervision is required for children between 2 and 12 years of age. Do not use if taking sulfonamides, for teething, or in children under 2 years of age.
