At-Home Treatments

UltraEZ™
DESENSITIZING GEL

- Provides immediate results
- Treats sensitivity
- Non-flavored gel available in syringes or disposable trays

UltraEZ desensitizing gel is a sustained-release 3% potassium nitrate desensitizing gel with fluoride (0.25% neutral NaF). This sustained-release formula quickly eliminates sensitivity from toothbrush abrasion, thermal and chemical changes, tooth whitening, and root exposure.

“Regardless of what whitening system the patient is using (although we use Opalescence), their sensitivity is resolved with UltraEZ. We’ve tried other products, but UltraEZ is the only truly effective one. Thanks!”
Dr. Scott Irwin – Phoenix, AZ

Opalescence™ Whitening Toothpaste for Sensitivity Relief

- Unique formulation is ideal for promoting oral health and maintaining bright, white smiles
- Removes surface stains to lighten teeth up to two shades in just one month
- Low abrasion formula protects enamel and is safe for everyday use
- Available in refreshing Cool Mint flavor

Opalescence Whitening Toothpaste for Sensitivity Relief has the same whitening power as the original Opalescence Whitening Toothpaste, plus maximum strength potassium nitrate for sensitivity relief.

Help Your Patients
STOP
Being So Sensitive

Ultradent offers a variety of in-office and at-home products specially designed to relieve hypersensitivity.
Ultradent™ Universal Dentin Sealant
FOR TRANSIENT ROOT SENSITIVITY
- Immediate relief—ideal following scaling and root planing
- Economically priced
- Quick application—just paint and dry

Ultradent Universal Dentin Sealant is a biocompatible, nonpolymerizable, high-molecular-weight resin in a volatile organic solvent. Simply coat sensitive roots or exposed dentin with Ultradent Universal Dentin Sealant to seal tubules and reduce discomfort after root planing or heavy scaling.

“I used to plead with younger patients to let me apply a fluoride varnish. But since we switched to Enamelast, they now come in asking if they can get the yummy stuff! Can’t say enough about Enamelast—it’s a great product!”

Susan Hanson, RDH – Denver, CO

Enamelast fluoride varnish is designed with staying-power. It contains a patented adhesion-promoting agent and has a smooth feel and nearly invisible appearance that your patients won’t want to brush off. Plus, Enamelast varnish comes in five great flavors your patients will love—Walterberry, Orange Cream, Bubble Gum, Cool Mint, and Caramel!

“In-Office Treatments”

Enamelast™
FLUORIDE VARNISH

- Patented adhesion-promoting agent for enhanced retention
- Superior fluoride release and uptake
- Smooth, non-gritty texture
- Nearly invisible appearance
- Nut free and gluten free

Enamelast fluoride varnish is designed with staying-power. It contains a patented adhesion-promoting agent and has a smooth feel and nearly invisible appearance that your patients won’t want to brush off. Plus, Enamelast varnish comes in five great flavors your patients will love—Walterberry, Orange Cream, Bubble Gum, Cool Mint, and Caramel!

“Ultradent Universal Dentin Sealant has been a great find for me. I have it applied on all areas of recession in my mouth at prophy, and it keeps me comfortable for about six months. I always know when I’m due for another prophy because my sensitivity comes back at about that time.”

Denise Hanstedt, Dental Assistant – Neenah, WI
