

## At-Home Treatments

### UltraEZ™ DESENSITIZING GEL

- Provides fast, easy treatment for sensitive smiles
- Non-flavored gel available in syringes or disposable trays

UltraEZ desensitizing gel is a sustained-release 3% potassium nitrate desensitizing gel with fluoride (0.25% neutral NaF). This sustained-release formula quickly eliminates sensitivity from toothbrush abrasion, thermal and chemical changes, tooth whitening, and root exposure.

*"Regardless of what whitening system the patient is using (although we use Opalescence), their sensitivity is resolved with UltraEZ. We've tried other products, but UltraEZ is the only truly effective one. Thanks!"*  
Dr. Scott Irwin – Phoenix, AZ

**1008 - UltraEZ Refill**  
4 x 1.2 ml UltraEZ syringes

**5743 - UltraEZ Mini Kit**  
4 x Upper/lower trays

**1007 - UltraEZ Econo Refill**

10 x Upper/lower trays

### Opalescence™ SENSITIVITY RELIEF WHITENING TOOTHPASTE

- Unique formulation is ideal for promoting oral health and maintaining bright, white smiles
- Removes surface stains to lighten teeth up to two shades in just one month<sup>2</sup>
- Low abrasion formula protects enamel and is safe for everyday use
- Available in refreshing Cool Mint flavor

The Opalescence Whitening Toothpaste Sensitivity Relief formula has the same whitening power as the original Opalescence Whitening Toothpaste, plus maximum strength potassium nitrate for sensitivity relief.

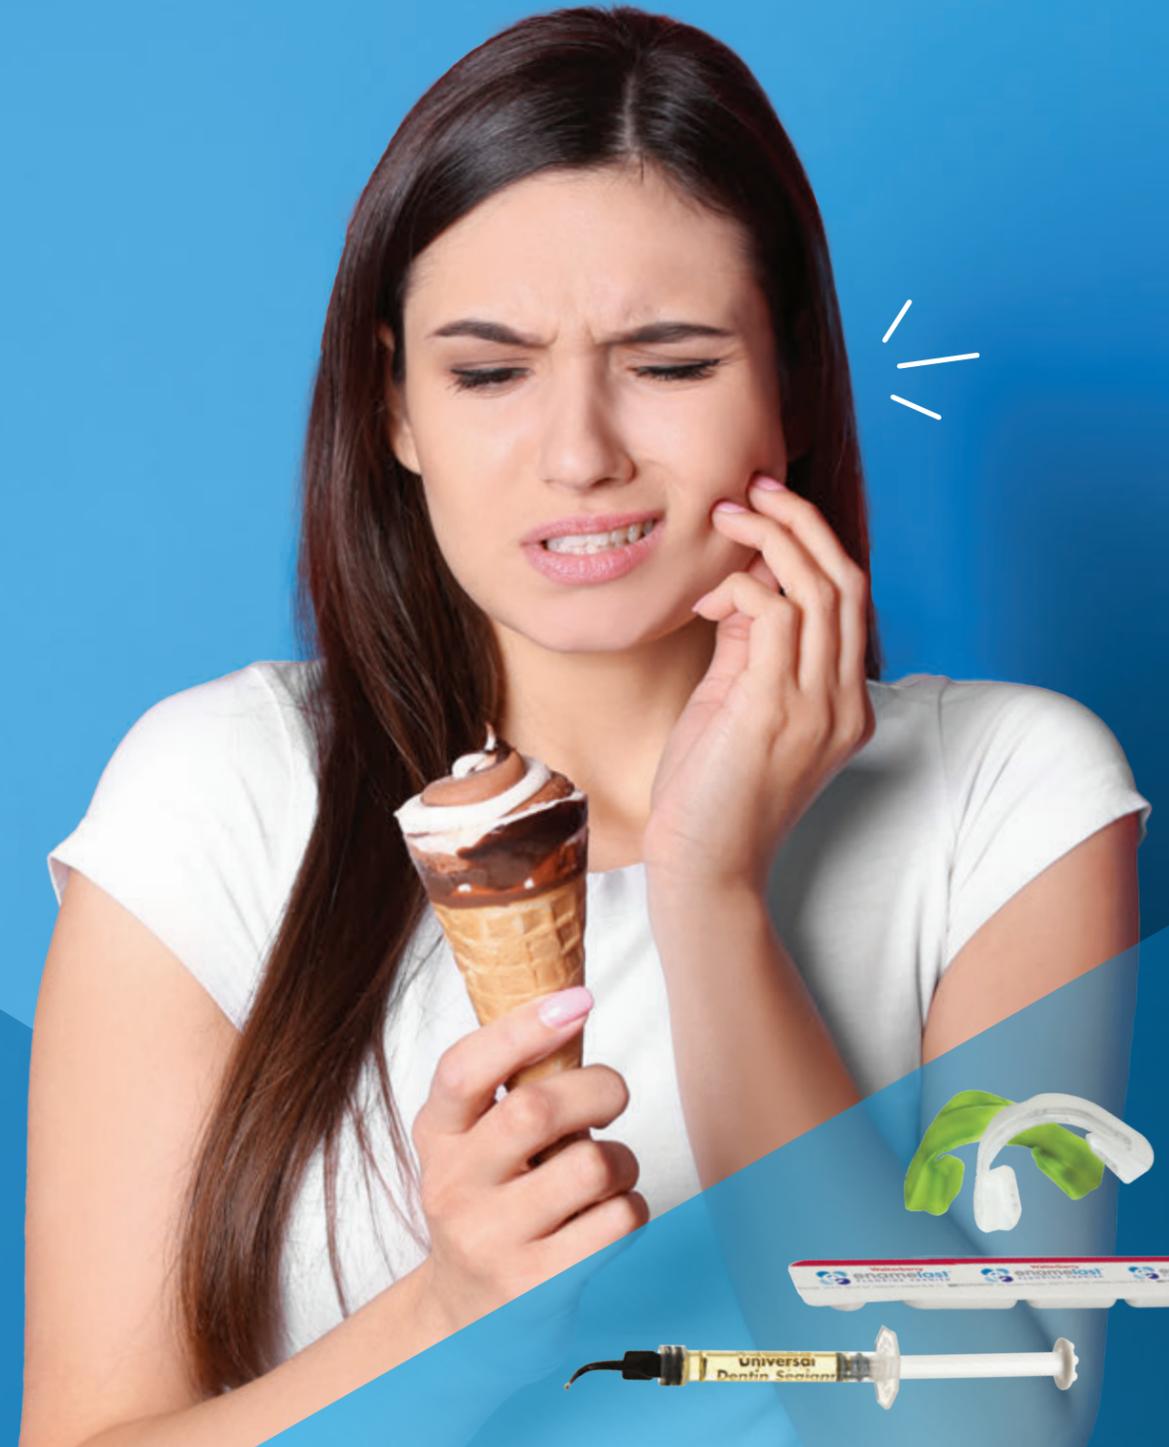

**3470 - Opalescence Whitening Sensitivity Toothpaste**  
12 x 4.7 oz tubes

**3472 - Opalescence Whitening Sensitivity Toothpaste**

50 x 0.4 ml unit doses - **Caramel**

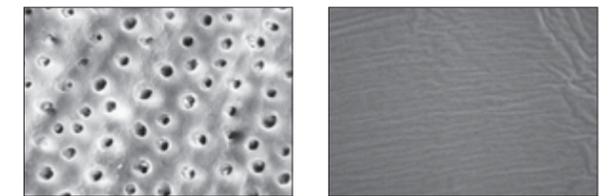

## Ultradent™ Universal Dentin Sealant FOR TRANSIENT ROOT SENSITIVITY

- Ideal following scaling and root planing
- Economically priced
- Quick application—just paint and dry

Ultradent Universal Dentin Sealant is a biocompatible, nonpolymerizable, high-molecular-weight resin in a volatile organic solvent. Simply coat sensitive roots or exposed dentin with Ultradent Universal Dentin Sealant to seal tubules and reduce discomfort after root planing or heavy scaling.

*"Ultradent Universal Dentin Sealant has been a great find for me. I have it applied on all areas of recession in my mouth at prophylaxis, and it keeps me comfortable for about six months. I always know when I'm due for another prophylaxis because my sensitivity comes back at about that time."*  
*Denise Hanstedt, Dental Assistant – Neenah, WI*

Ultradent Universal Dentin Sealant covers dentin with a protective seal. Both surfaces have been conditioned with phosphoric acid for 20 seconds; SEM on the right was sealed first with Ultradent Universal Dentin Sealant.

**266 - Ultradent Universal Dentin Sealant Refill**  
4 x 1.2 ml syringes

**1169 - Black Mini™ Brush Tip**  
100pk
