

At-Home Treatments

UltraEZ™ DESENSITIZING GEL

- Provides fast, easy treatment for sensitive smiles
- Non-flavored gel available in syringes or disposable trays

UltraEZ desensitizing gel is a sustained-release 3% potassium nitrate desensitizing gel with fluoride (0.25% neutral NaF). This sustained-release formula quickly treats sensitivity from toothbrush abrasion, thermal and chemical changes, tooth whitening, and root exposure.

"Regardless of what whitening system the patient is using (although we use Opalescence), their sensitivity is resolved with UltraEZ. We've tried other products, but UltraEZ is the only truly effective one. Thanks!"
Dr. Scott Irwin – Phoenix, AZ

1008 - UltraEZ Refill 4 x 1.2 ml UltraEZ syringes

5743 - UltraEZ Mini Kit 4 x Upper/lower trays

1007 - UltraEZ Econo Refill 20 x 1.2 ml UltraEZ syringes

"I used to plead with younger patients to let me apply a fluoride varnish. But since we switched to Enamelast, they now come in asking if they can get 'the yummy stuff!' Can't say enough about Enamelast—it's a great product!"

Susan Hanson, RDH – Denver, CO

Universal Dentin Sealant FOR TRANSIENT ROOT SENSITIVITY

- Ideal following scaling and root planing
- Economically priced
- Quick application—just paint and dry

Ultradent Universal Dentin Sealant is a biocompatible, nonpolymerizable, high-molecular-weight resin in a volatile organic solvent. Simply coat sensitive roots or exposed dentin with Ultradent Universal Dentin Sealant to seal tubules and reduce discomfort after root planing or heavy scaling.

"Ultradent Universal Dentin Sealant has been a great find for me. I have it applied on all areas of recession in my mouth at proph, and it keeps me comfortable for about six months. I always know when I'm due for another proph because my sensitivity comes back at about that time."
Denise Hanstedt, Dental Assistant – Neenah, WI

Ultradent Universal Dentin Sealant covers dentin with a protective seal. Both surfaces have been conditioned with phosphoric acid for 20 seconds; SEM on the right was sealed first with Ultradent Universal Dentin Sealant.
