

Ultracare[®]

ORAL ANESTHETIC GEL

TOTAL TOPICAL CARE

Why settle for a topical anesthetic that just numbs the tissue when you could have a product that does so much more?

ULTRADENT
PRODUCTS, INC.

800.552.5512 ULTRADENT.COM

When you choose Ultracare gel as your topical anesthetic, YOU GET ITS TRIO OF BENEFITS!

1. 20% benzocaine for fast numbing of soft tissues
2. Syringe or swab delivery for easy application anywhere in the mouth
3. Four delicious flavors: Walterberry, Bubble Gum, Cool Mint, and Orange Cream

Syringe and IndiSpense®

Convenient syringe delivery offers precise placement, easy cleanup, and reduced waste. It also allows access to subgingival areas with minimal discomfort to the patient.

For pretreatment prior to root planing and scaling, Ultracare gel costs just \$1.10 per syringe when used with IndiSpense syringe refills. The competition charges over \$6 per cartridge *and* requires the purchase of an expensive dispenser.

Ultracare anesthetic gel is effective *and* tasty. Syringes are available in Ultradent's famous Walterberry flavor and fabulous Orange Cream flavor. IndiSpense syringe refills are available in Walterberry, Bubble Gum, and Orange Cream flavors.

METHEMOGLOBINEMIA WARNING:

For external use only. Use of this product may cause methemoglobinemia, a serious condition that must be treated promptly because it reduces the amount of oxygen carried in blood. This can occur even if you have used this product before. Stop use and seek immediate medical attention if you or a child in your care develops: • pale, gray, or blue colored skin (cyanosis) • headache • rapid heart rate • shortness of breath • dizziness or lightheadedness • fatigue or lack of energy. Product supervision is required for children between 2 and 12 years of age. DO NOT use for children under 2 years of age.
