A

If you already have a BioIVT.com Digital Portal Account, fill in your account information to be directed to your Account Dashboard.

B

If you do not have an account, follow the steps to create one.

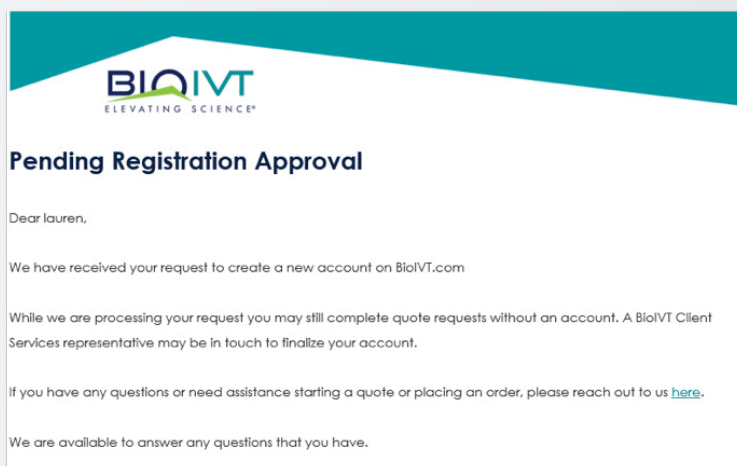

Confirmation of Account Setup

Account approval takes one to three days.

Once approved, you'll receive a confirmation email to set up your password.

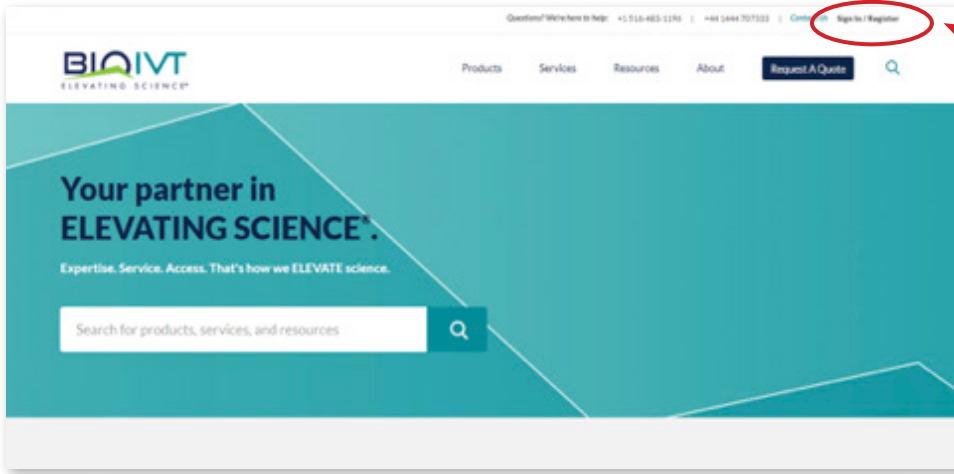

After you've created your password, you'll have instant access to your order status, tracking, order history and documentation.

If you have any questions or issues, please **[contact us](#)**.

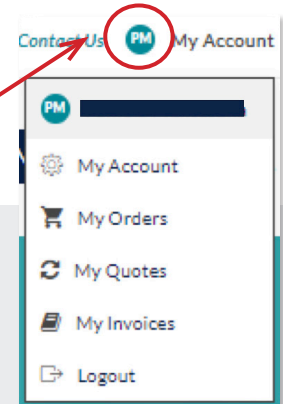

If you do not receive your account approval confirmation, please check your spam folder. If you have any questions, email us at customerservice@bioivt.com.

2. Accessing Your Account Dashboard

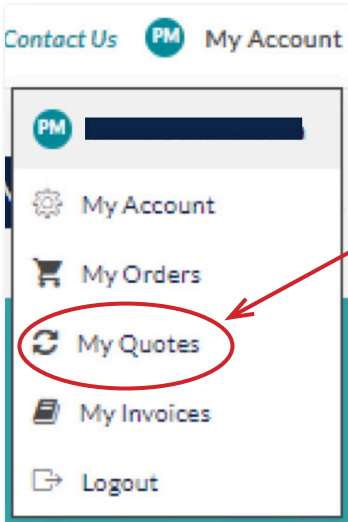

Use the **Sign In/Register** link to sign in to your BioIVT.com Digital Portal account.

Once you are signed into your account, you will see your initials in the upper right-hand corner of the screen.

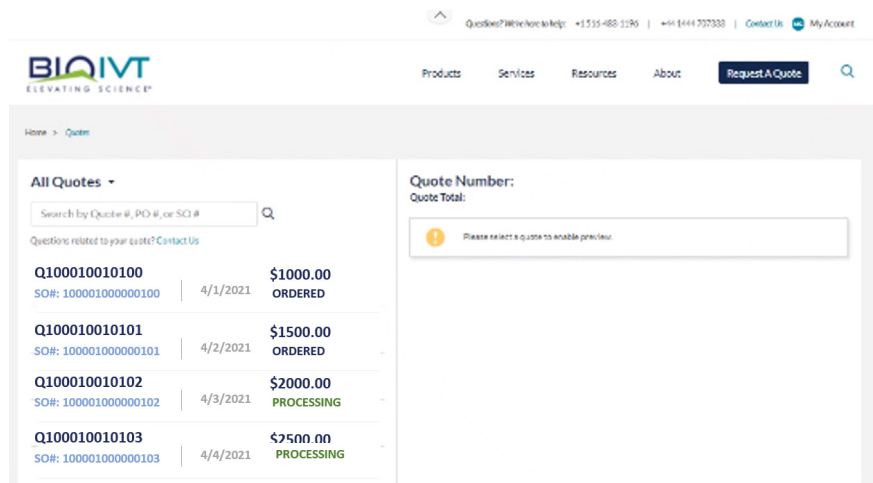

When you sign into your account for the first time, please check all your account details. Confirm that the default billing and shipping addresses are correct.

View Your Quotes

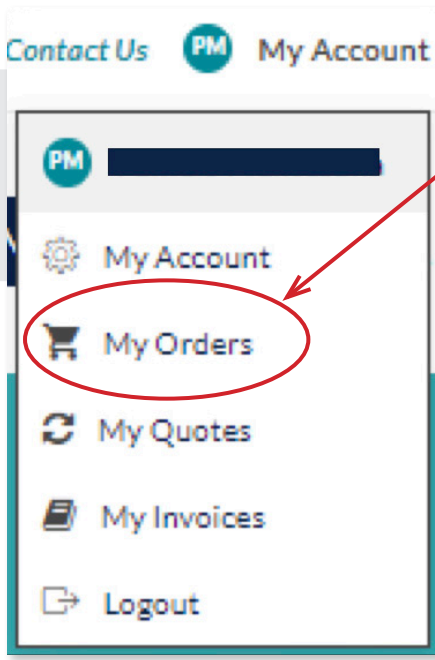

Click on **My Account** then click on **My Quotes** from the drop-down menu.

You can search by quote#, PO#, SO#, or by status.

View Your Orders

Click on **My Account**, then click on **My Orders** from the drop-down menu.

You'll be able to see up to three years of your order history.

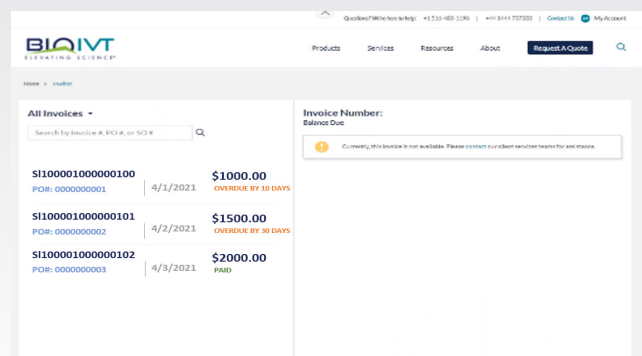

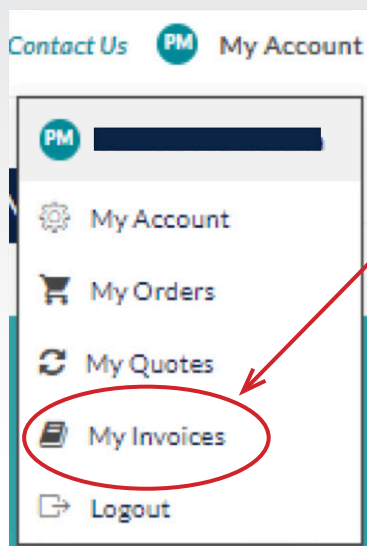

You can view:

- Order documents
- Order status
- Tracking information
- Product lot numbers

View Your Invoices

Click on **My Account**, then click on **My Invoices** from the drop-down menu.

You can view:

- Current invoice status: open, paid, due or overdue
- Past invoices

View Your Product Documentation

For select product types, you can access certificates of analysis and product specification sheets.

3. How to View Products

There are two areas on the BioIVT.com home page where you can type in keywords to search for products.

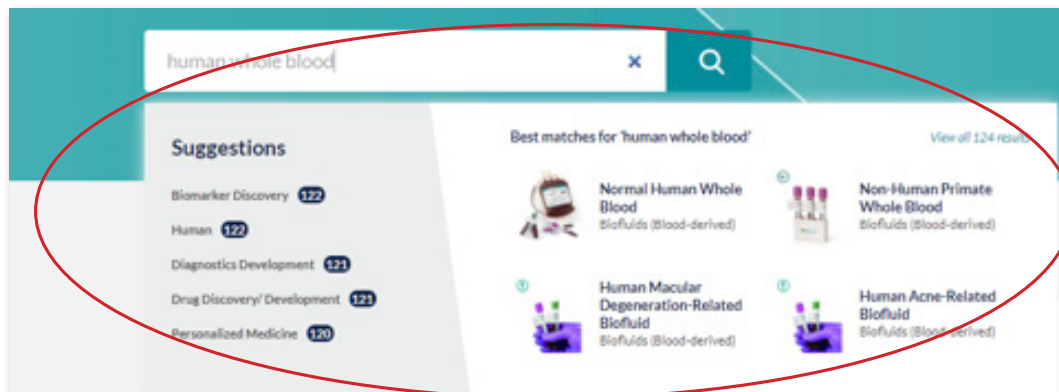

1 The search icon in the upper right corner of the home page.

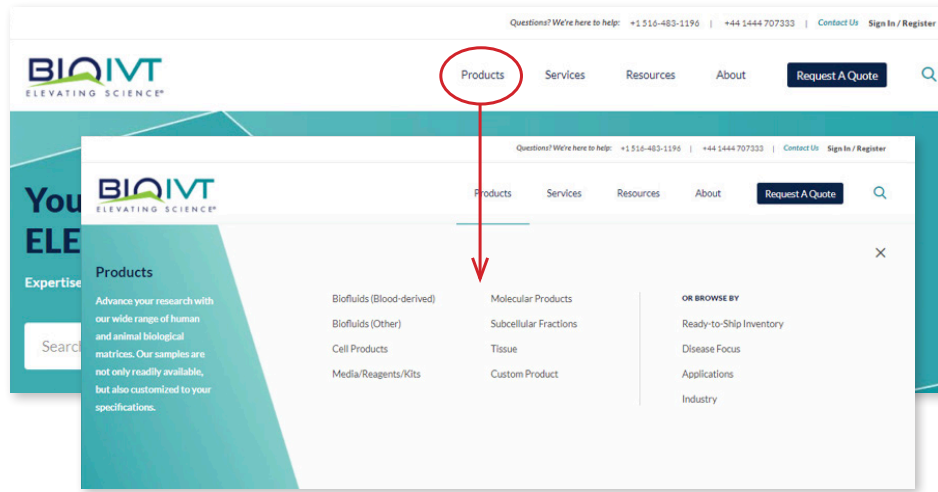

2 The search box in the main section of the home page.

To find a specific product on BioIVT.com, you can type keywords in either search box. As you enter text, you will see a list of search results populate.

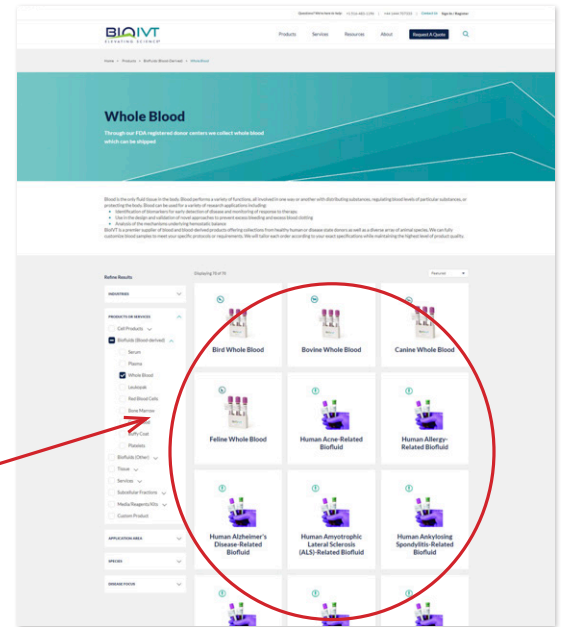

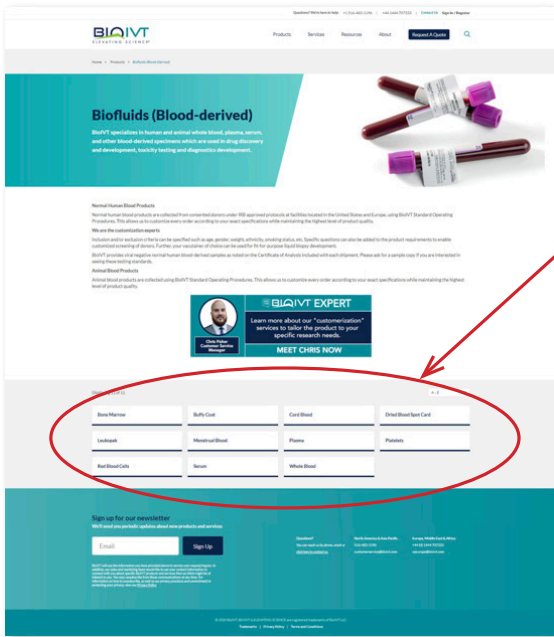

You can click on the results by category on the left, one of the product listings in the middle or the link in the upper right-hand corner that will show all the results related to your search term.

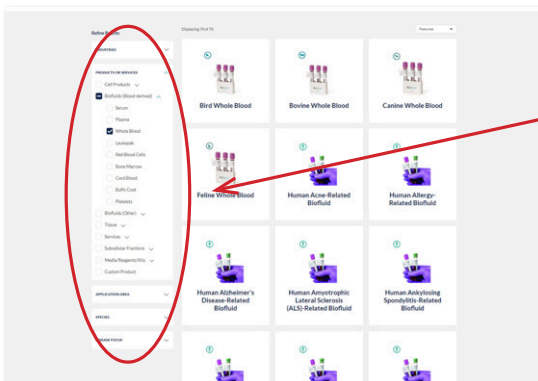

You can also click on the **Products** or **Services** options and the drop-down menu will display with additional categories.

On the product category page, you can select subcategories to view all available related products.

Click on the product you're interested in to customize it, view pricing and add it to your cart.

You can also select specific criteria from the menu on the left-hand side. You can refine your search results by:

- Industry
- Products and services
- Application area
- Species
- Disease focus

4. How to View Available Inventory

1 Allergy-Related Serum

Inventory and custom procurement solutions, our ability to source the right associated biofluid, from donors derived to microbiome related, from donors with clinically defined Allergies with the right clinical data is assured.

Browse Inventory

Select Product Criteria

You can currently view inventory for select inventory. There are two ways to access the available inventory.

Note: You must have a BioIVT.com Digital Portal account to view the product inventory and pricing.
