Dear Family,

We want your child to be successful in school and that means supporting and encouraging their whole development. While excelling in academic classes is important, students also need skills to take on learning challenges, make good decisions, handle strong emotions, and get along with others.

This week, we'll begin Second Step® Middle School, a research-based social-emotional learning program designed to improve students' social-emotional skills, such as emotion management, impulse control, problem solving, and empathy. Second Step skills and concepts are designed to help students both in and out of school. These include:

Mindsets and Goals: Students learn how to develop a growth mindset and apply research-based goal-setting strategies to their social and academic lives.

Recognizing Bullying and Harassment: Students learn how to recognize bullying and harassment, stand up safely to bullying, and respond appropriately to harassment.

Thoughts, Emotions, and Decisions: Students learn how to recognize strong emotions and unhelpful thoughts, and apply strategies to manage their emotions and reduce stress.

Managing Relationships and Social Conflict: Students learn strategies for developing and maintaining healthy relationships, perspective-taking, and dealing with conflict.

If you have any questions about Second Step® Middle School, please don't hesitate to contact me for more information. Thank you for your support as we work to build a safe and supportive school community.

Sincerely,

Estimada familia:

Deseamos que su hijo tenga éxito en la escuela, y eso significa apoyar y alentar todo su desarrollo. Distinguirse en las clases académicas es importante, pero los estudiantes también necesitan habilidades para enfrentar dificultades de aprendizaje, tomar buenas decisiones, controlar emociones fuertes y tener una buena relación con los demás.

Esta semana, empezaremos el Programa Second Step para la Escuela Media, un programa de aprendizaje socioemocional (ASE) basado en investigaciones diseñado para mejorar las habilidades socioemocionales de los estudiantes, como el manejo de las emociones, el control de los impulsos, la resolución de problemas y la empatía. Las habilidades y los conceptos de Second Step están diseñados para ayudar a los estudiantes dentro y fuera de la escuela. Estos incluyen:

Mentalidades y objetivos: los estudiantes aprenden cómo crear una mentalidad de crecimiento, y cómo aplicar a su vida social y académica estrategias para establecer objetivos que están basadas en investigaciones.

Reconocer el bullying y el acoso: los estudiantes aprenden cómo reconocer el bullying y el acoso, enfrentar el bullying de forma segura y responder apropiadamente al acoso.

Pensamientos, emociones y decisiones: los estudiantes aprenden cómo reconocer emociones fuertes y pensamientos inútiles, y cómo aplicar estrategias para controlar sus emociones y reducir el estrés.

Manejar relaciones y conflictos sociales: los estudiantes aprenden estrategias para crear y mantener relaciones sanas, tomar perspectiva y abordar conflictos.
