## Template

### Outside binder cover with back size 29 mm

Size: 560 x 315 mm

You can use this file as an extra layer in your layout programme.  
Do not forget to make our template invisible or to delete it before you save your final PDF, or JPG with high a resolution.

#### Format size to be submitted (590 x 345 mm)

Finished size + 15 mm margin (to wrap your printing around the edges of the binder).  
It is advised to let the background and all of the images run through to this edge. This ensures that your printing can be cut neatly and this prevents a white edge around your print.

#### Finished size (560 x 315 mm)

Your printing will be cut on these dimensions. This format will be the final size.

#### Safe zone (4 mm)

Please make sure you keep your important images and text 4 mm clear of the cutting edges. This prevents a possible cut in the important parts, or that the images are so close to the edge that it results in a sloppy design.

**Template**  
**Inside cover binder with back size 29 mm**

Size: 548 x 303 mm

You can use this file as an extra layer in your layout programme.  
Do not forget to make our template invisible or to delete it before you save your final PDF,  
or JPG with high a resolution.

**Format size to be submitted (553 x 308 mm)**

Finished size + 5 mm cutting margin (bleed)  
It is advised to let the background and all of the images run through to this edge. This  
ensures that your printing can be cut needly and this prevents a white edge around your  
print.

**Finished size (548 x 303 mm)**

The finished size is 6 mm smaller than the outside binder (cardboard size).

**Safe zone (4 mm)**

Please make sure you keep your important images and text 4 mm clear of the cutting  
edges. This prevents a possible cut in the important parts, or that the images are so close to  
the edge that it results in a sloppy design.
