

Template

Tube Banner Stand

Size: 1000 x 2000 mm

You can use this file as an extra layer in your layout programme.
Do not forget to make our template invisible or to delete it before
you save your final PDF, or JPG with a high resolution.

Format size to be submitted (1000 x 1950 mm)

Finished size + cutting margin (bleed)
It is advised to let the background and all of the images run through
to this edge. This ensures that your printing can be cut neatly and
this prevents a white edge around your print.

Finished size (980 x 1930 mm)

Your printing will be cut on these dimensions. This format will be
the final size.

Safe zone (\pm 60 mm)

Please make sure you keep your important images and text
 \pm 60 (70mm from the format size to be submitted) clear of the
cutting edges. This prevents a possible cut in
the important parts, or that the images are so close to the edge that
it results in a sloppy design.
