the 1990s, the number of people who are employed in the service sector has increased in all countries. The increase is most pronounced in the United States, where the service sector has become the dominant sector of the economy.

There are several reasons for this increase. One reason is that the service sector has become more important in the economy. Another reason is that the service sector has become more profitable. A third reason is that the service sector has become more attractive to workers. Finally, the service sector has become more important in the economy because of the increasing importance of services in the economy.

The increase in the service sector has led to a number of changes in the economy. One change is that the service sector has become more important in the economy. Another change is that the service sector has become more profitable. A third change is that the service sector has become more attractive to workers. Finally, the service sector has become more important in the economy because of the increasing importance of services in the economy.
