Additional recommendations

- For Heavy Soiled Mats, increase the temperature up to max. 60°C.
- The wash or rinse baths should have a pH between 6 and 9.5; use low pH non-ionic detergents.
- Do not overdry mats; Basket-temperature of the dryer should not exceed 82 °C.
- If mats are not dried, the final rinse can be increased to 49 °C. This will reduce moisture retention following extraction.
- Lay mats flat following removal from washer; allow mats to cool before rolling.
