

The diagram illustrates a shop flag template with various dimensions and zones. A vertical orange line on the left is labeled '1380 mm'. A horizontal orange line at the bottom is labeled '680 mm'. A dashed pink line, representing the safe zone, is labeled '1360 mm' vertically and '700 mm' horizontally. A blue line indicates the 'Stitched seam' at the bottom right corner. The text 'Template Shop flag longlife 68x68x136 cm' is prominently displayed in the center, with 'Size: 680 x 680 x 1360 mm' below it. A warning icon and text are also present, along with detailed instructions for the 'Format size to be submitted', 'Finished size', and 'Safe zone'.

Template

Shop flag longlife 68x68x136 cm

Size: 680 x 680 x 1360 mm

You can use this file as an extra layer in your layout programme. Do not forget to make our template invisible or to delete it before you save your final PDF, or JPG with high a resolution.

Format size to be submitted (700 x 1360 mm)

Finished size + 10 mm cutting margin (bleed)
It is advised to let the background and all of the images run through to this edge. This ensures that your printing can be cut needly and this prevents a white edge around your print.

Finished size (680 x 680 x 1360 mm)

Your printing will be cut on these dimensions. This format will be the final size and will be delivered to you.

Safe zone (40 mm)

Please make sure you keep your important images and text 40 mm clear of the cutting edges. This prevents a possible cut in the important parts, or that the images are so close to the edge that it results in a sloppy design.
