

**Size: Ø 50 mm**

**Submission specifications,  
page 2**

# Explanation

## Stamps

- Always deliver a file that only contains artwork made of 100% black (K). No colour or greyscale can be used.
- Stamp pad colour determines the colour: black, blue, green or red.
- Resolution of artwork at 100% (full size) must be at least 300 dpi, but preferably higher for best results (1200 dpi).
- Font size must be at least 7 pt.
- Line width must be at least 1 pt. Lines thinner than this will produce an undesirable result.

**Use page 1 of this file on a separate layer in your layout program.  
Do not forget to remove this template from your artwork before saving the final PDF or JPG in high resolution.**
