

The diagram shows an oval template with three concentric boundaries: a solid orange outer line, a dashed magenta middle line, and a solid orange inner line. Dimensions are indicated with arrows: 74 mm for the total width (between the outer and inner lines), 52 mm for the total height (between the outer and inner lines), 70 mm for the width of the middle section (between the dashed and inner lines), and 48 mm for the height of the middle section (between the dashed and inner lines). The word 'FRONT' is written in large orange letters at the top. Text instructions are located in the center-left, and a warning icon is placed to the left of the example text.

FRONT

## Template

### Oval 70 x 48 mm

Formaat: 70 x 48 mm

You can use this file as an extra layer in your layout programme.  
Do not forget to make our template invisible or to delete it before you save your final PDF, or JPG with a high resolution.

*Example: Size to be submitted (74 x 52 mm)*

(Your selected WIDTH and HEIGHT in millimeters + 3mm on all edges)

Finished size + 2 mm cutting margin (bleed)

It is advised to let the background and all of the images run through to this edge. This ensures that your printing can be cut neatly and this prevents a white edge around your print.

*Example: Finished size: (70 x 48 mm)*

(Your selected WIDTH and HEIGHT in millimeters)

Your printing will be cut on these dimensions. This format will be the final size and will be delivered to you.

**Safety zone (3 mm)**

Please make sure you keep your important images and text 4 mm clear of the cutting edges. This prevents a possible cut in the important parts, or that the images are so close to the edge that it results in a sloppy design.
