

2025-26

q++ sponsorship prospectus

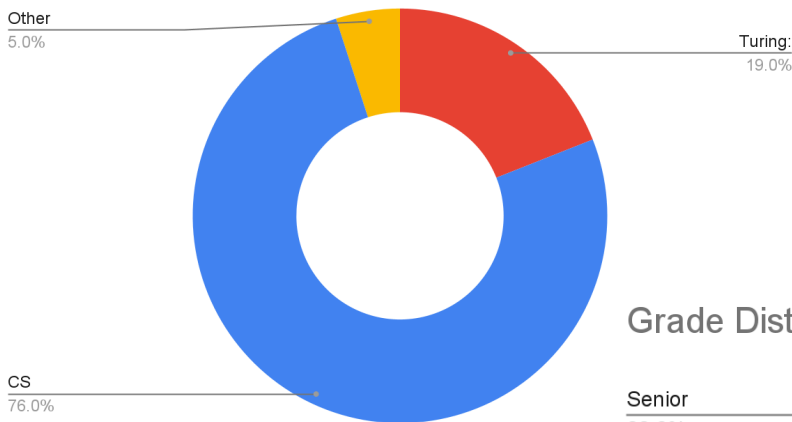

Q++ is an organization at the University of Texas at Austin that aims to empower and support LGBTQ+ students in computer science and technology.

about us

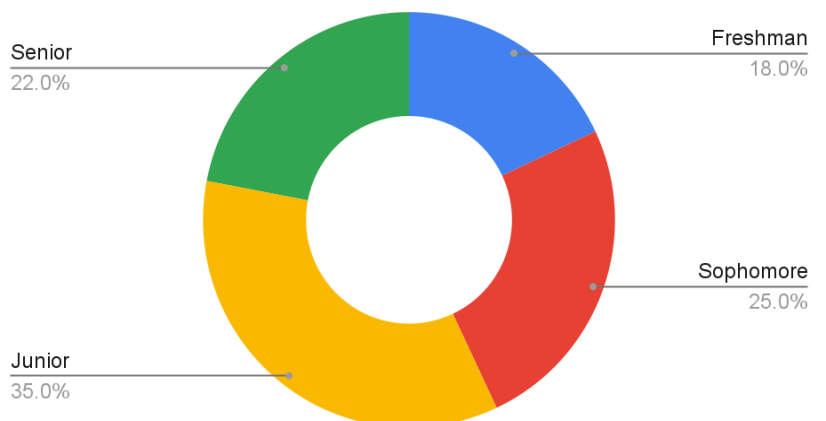

We are a student-run organization with 40 active members. We provide support to our members through social, corporate, and academic initiatives, including (but not limited to):

- Biweekly general meetings
- On- and off-campus social events
- Resume workshops, tech talks, and other networking opportunities with our corporate sponsors
- Joint study nights and other events with ABCS, HACS, and WiCS

faqs

- **What are Diversity Networking Night and DivDay?**

Diversity Networking Night is our major corporate initiative, organized jointly with ABCS and HACS. It occurs in the fall, usually in September, as a career-fair-style networking event for our orgs' members.

- **What is FoCS+?**

Friends of CS+ (FoCS+) is a program run by the UT Computer Science Department to facilitate relationships between companies and UTCS student organizations. Our FoCS+ benefits are for any companies that choose to engage with us through the platform. For more information on FoCS+, please reach out to [Brandi Westgate](#).

- **What does a standard corporate event look like?**

In the past, we've hosted a wide variety of corporate events and activities. While we like to encourage more nonstandard events, such as movie or Jeopardy nights, we have also seen success in resume workshops, information sessions, and professional panels.

- **Can I mix and match benefits?**

We are happy to work with you on adjusting any benefits and pricing that you are interested in. Just let us know!
