SUBSCRIPTIONS

Decimal Pricing for Non Usage Add-ons

Price non-usage add-ons to fractions of a cent to support precise per-unit rates, protect margins, and eliminate unnecessary rounding errors.

Learn more →

SUBSCRIPTIONS

Tax-Inclusive Invoice Display

Show subscribers one clear, all-in price on tax-inclusive invoices while maintaining accurate tax calculations and compliance behind the scenes.

Learn more →

SUBSCRIPTIONS

Vertex Tax Integration Update

Stay current with Vertex and support Brazil's evolving tax requirements with compliant fields, tax-inclusive displays, validated IDs, and invoice-level labeling.

Learn more →

SUBSCRIPTIONS

Custom Fields to Vertex Flex Field Mapping

Send custom Recurly data directly to Vertex to automate more precise tax decisions based on transaction attributes, commodity codes, and business context.

Learn more →

SUBSCRIPTIONS

Granular Coupon Batch Expiration

Set a custom redemption window for each batch of unique codes and run multiple time-sensitive promotions from one bulk coupon.

Learn more →

SUBSCRIPTIONS

Granular User Permissions

Control access at the page and resource level to reduce risk, prevent accidental changes, and support security and compliance reviews.

COMING SOON

SUBSCRIPTIONS

E-Invoicing (Avalara ELR)

Submit compliant invoices and credit notes to government clearance networks directly from Recurly—without maintaining a separate tax technology stack.

COMING SOON

SUBSCRIPTIONS

PayPay on Adyen

Offer PayPay for recurring subscriptions in Japan, with support for initial authorization, stored mandates, and unscheduled renewal payments.

Learn more →

SUBSCRIPTIONS

Checkout Payment Method Analytics

Compare payment method selection and authorization rates to pinpoint whether conversion issues originate in checkout, at the gateway, or both.

Learn more →

SUBSCRIPTIONS

3DS Processing Analytics

Track 3DS outcomes by gateway and country to distinguish authentication problems from downstream bank declines and act on the right issue.

Learn more →

SUBSCRIPTIONS

GCash on dLocal

Offer GCash for recurring subscriptions in the Philippines while dLocal manages local tax and compliance through its Merchant of Record model.

Learn more →

SUBSCRIPTIONS

Cards in LATAM (EBANX)

Accept local card schemes across 13 Latin American markets and improve authorization potential without relying solely on international payment routing.

Learn more →

ENGAGE

AI Compass Integration (documentation assistant)

Get contextual product answers directly inside Engage without leaving your workflow to search documentation, browse support articles, or submit a ticket.

COMING SOON

ENGAGE

AI Style Studio

Describe the design change you want and instantly apply it to Engage prompts — no CSS expertise, developer ticket, or manual coding required.

Early access

ENGAGE

Multi-Subscription Connector Actions Support

Target the correct subscription when customers hold multiple plans, preventing cancel-save actions from changing or canceling the wrong contract.

COMING SOON

COMMERCE

Renewal Email Reminders

Configure reminder timing by billing frequency to give annual subscribers enough notice without overwhelming customers who renew more frequently.

Learn more →

COMMERCE

Subscription Splitting and Order Confirmation

Manage each plan through a separate contract while combining same-day renewals into one streamlined order and charge for the subscriber.

Learn more →

COMMERCE

Digital Subscriptions

Remove unnecessary shipping fields, use digital-friendly checkout language, and configure trials of any length for digital subscription products.

Learn more →

COMMERCE

Compass Assistant

Get accurate answers about pricing, dunning, and automations directly inside Commerce — without searching help pages or waiting for support.

Learn more →

SUBSCRIPTIONS

Magic Links for Customer Portal

Let subscribers open and manage their subscriptions directly from notification emails without re-entering an email address or requesting a code.

COMING SOON

COMMERCE

Advanced Dunning

Match recovery messages to the reason for each decline, give subscribers clearer next steps, and track the revenue your campaigns recover.

Learn more →

REVREC

Payments sync

Trigger real-time accounts receivable subledger updates from actual payment events to keep revenue records current and financial reporting aligned.
