

Introducing TD Online Mart

Starting in the week of July 1, 2024, the **TD Online Mart** payment gateway is now available for merchants based in Canada.

What is TD Online Mart?

TD Merchant Solutions' online payment provider, TD Online Mart, powered by Worldline, gives you access to the following payment processing features:

- **Streamlined Checkout Experience** — Provide customers with familiar, intuitive payment steps and accept many major credit card brands.
- **Stored Credit Cards** — Encourage repeat purchases by enabling customers to securely store their credit card information.
- **Post-Order Actions** — Capture, void, or refund transactions from your BigCommerce control panel.
- **Rapid Access to Funds** — Get same day deposits* for TD business banking merchants
- **Fraud Prevention** — Reduce the risk of fraudulent transactions and chargebacks with tools like 3D Secure, address verification, and risk threshold filters.
- **Built-In Reporting** — View and filter your transaction history from the merchant account, and gather information on declined payments.

*Payment transaction amounts will be posted to the TD business banking account and dated as of the same business day that the transaction was completed and submitted. Transactions completed on weekends and holidays will be posted and credited to the TD business banking account as of the next business day.

Getting started with TD Online Mart

Before offering TD Online Mart payments on your storefront, you must have an approved and active TD Online Mart account. Work with TD Merchant Solutions to get your TD Online Mart account up and running to accept payments. Once you've generated your connection credentials, return to your BigCommerce store to enable the payment gateway.

For a complete walkthrough of setting up TD Online Mart in your store, see [Connecting with TD Online Mart](#) in the Knowledge Base.
